EXECUTIVE INTRODUCTION

EXECUTIVE INTRODUCTION

The mission of the Oklahoma Department of Transportation is to provide a safe, economical and effective transportation network for the people, commerce and communities of Oklahoma.

The Oklahoma Department of Transportation Commission develops a long range statewide transportation plan (minimum of 20 years) which is a policy plan, not a project plan. It presents policies specific to each mode of transportation and aids economic development through transportation improvements. The Department also develops an 8 Year Construction Work Plan which encompasses State, Federal and Interstate highway improvement projects. From that Plan, the Statewide Transportation Improvement Program (STIP) is developed for all areas of the state. Both plans and the STIP identify key transportation needs and facilitate the development, management and operation of safe transportation systems.

The Commission would like to thank all citizens, federal and state agencies, elected and appointed officials, Indian Tribal Governments, Metropolitan Planning Organizations and transportation users for their time and effort in providing input for this program.

OKLAHOMA TRANSPORTATION COMMISSION

ODOT DIVISIONS BY DISTRICT

DIVISION I – MUSKOGEE

Location: 2800 S. 32nd - 74401
Phone(918) 687-5407
FAX(918) 687-9955

Division Engineer

Maintenance Engineer
Construction Engineer

Darren Saliba

Troy Travis
Mark Majors

DIVISION II – ANTLERS

Mailing: P.O. Drawer 628 – 74523
Location: E. Side of US 271 2.0 Mi S. of Antlers
Phone(580) 298-3371; FAX(580) 298-6152

Division Engineer

Maintenance Engineer
Construction Engineer

Calvin Carney

Brian Taylor (Acting)
John Winters

DIVISION III – ADA

Mailing: P.O. Box 549 – 74820
Location: 12844 SH-3W
Phone(580) 332-1526; FAX(580) 332-0261

Division Engineer

Maintenance Engineer
Construction Engineer

Paul Rachel

Bill Wilkinson
Ron Brown

DIVISION IV – PERRY

Mailing: P.O. Box 471 – 73077
Location: 2609 US-77W
Phone(580) 336-7340 or 521-3805; FAX(580) 336-7350

Division Engineer

Rural Asst. Div Mgr

Casey Shell

Anthony Echelle
Roy Counts

DIVISION IV ANNEX

Urban Asst. Div Engineer
Location: 1100 East Reno, OKC – 73117
Phone(405) 319-3580; FAX(580) 319-3581

DIVISION V – CLINTON

Mailing: P.O. Box 1449 – 73601
Location: 1745 S US 183
Phone(580) 323-1431; FAX(580) 323-1430

Division Engineer

Maintenance Engineer
Construction Engineer

Brent Almquist

Ron McDaniel
Jerry Douglas

DIVISION VI – BUFFALO

Mailing: Box 190 – 73834
Location: US 64 West
Phone(580) 735-2561; FAX(580) 735-2248

Division Engineer

Maintenance Engineer
Construction Engineer

Scott Armstrong (Acting)

James Robison
Scott Armstrong

DIVISION VII – DUNCAN

Mailing: Box 460 – 73534
Location: 2205 South US 81 Bypass
Phone(580) 255-7586; FAX(580) 255-5064

Division Engineer

Maintenance Engineer
Construction Engineer

Bob Rose

Brad Mirth
Jeff Hiller

DIVISION VIII – TULSA

Mailing: P.O. Box 660 – 74101
Location: 4002 N. Mingo Valley Exp.-74116
Phone(918) 838-9933; FAX(918) 832-9074

Division Engineer

Maintenance Engineer
Construction Engineer

Randle White

Mike Smith
Mark Zishka

WHAT IS THE STIP?

WHAT IS THE STIP?

WHAT IS THE STIP?

There are many needs on Oklahoma's transportation system. Identifying and prioritizing those needs is a continuous process of evaluating state and regional transportation needs at the broadest level. It includes a progression of planning activities which help establish a context for sound policy decisions and is an avenue for involving the public in transportation plans to support the state and regional vision for the future. The Statewide Transportation Improvement Program (STIP) is a financially constrained program which identifies priority and regionally significant transportation projects based on extensive planning. These are projects in which full funding is reasonably anticipated to be available in order to implement during the next four (4) years. This is not a final schedule of projects but is a "best estimate" at the time of STIP development. Only the projects in the first year of an approved STIP constitute an "agreed to" list for subsequent scheduling and implementation. The STIP serves as a short range planning tool which educates the public on future transportation needs and assures that federal funds are spent on projects consistent with approved long range plans.

The State develops a new STIP biennially in direct relationship to the currently approved 8 Year Construction Work Plan. It is revised through a series of amendments which may be necessary due to a variety of factors, such as funding changes, project scope changes, or even a change in priority requested.

This STIP was developed under the guidelines provided by the federal surface transportation law, known as the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) which combines the continuation and improvement of previous programs with new initiatives to meet the challenges of improving safety as traffic volumes continue to increase.

SECTION 1:

BALANCING PROCESS

SECTION 1: BALANCING PROCESS

The SAFETEA-LU requires that the STIP be fiscally constrained by year. The budgetary projections, established through a systematic evaluation of the Department's anticipated Federal-Aid and State revenues and expenditures, as well as previously unobligated balances in funding categories, earmarks and other mandatory programs, are utilized to assure this. In addition, the Federal-Aid amount includes a 7.5% projection overstatement to avoid any potential loss of future Federal Aid funds due to under programming. Projections were performed for Federal Fiscal Years 2011 - 2014 with the Federal Fiscal Year defined as beginning October 1st and ending on September 30th. If federal funding received varies from original estimates, the number of projects included in any one year will be revised accordingly.

SECTION 2:

PROJECT SELECTION AND PRIORITIZATION

SECTION 2:

PROJECT SELECTION AND PRIORITIZATION

Project planning and development focuses on specific transportation needs in a given area. It identifies alternative actions to address these needs and generates the information needed to select a preferred project for implementation. Identifying and prioritizing transportation needs is a continuous and coordinated process. The ODOT Planning & Research Division is responsible for identifying area transportation needs and providing planning documents and the results of public involvement to the ODOT Field Division Engineers for their consideration in the selection of State, Federal and Interstate highway improvement projects. The planning products developed include the Long Range Statewide Transportation Plan, a policy oriented document that identifies strategies to help meet the needs of all transportation modes over the next 25 years; feasibility or corridor studies, which assess the needs of particular transportation corridors, and prioritize recommended improvements; the Needs Study and Sufficiency Rating Report, which assesses the condition and capacity of the highway network and estimates the cost to improve the system to current design standards; the Statewide Pavement Management Report, which identifies the funding level needed to improve overall pavement condition, and recommends the most cost effective mix of treatments for the system; and other project level studies.

The State's transportation planning efforts are also coordinated with those of Oklahoma's Metropolitan Planning Organizations, in consultation with the tribal governments and non-metropolitan area local officials with responsibilities for transportation. The development of the Long Range Statewide Transportation Plan, Corridor Studies, Statewide Transportation Improvement Program, as well as early project development all include opportunities for public participation and review.

The maps on the following pages illustrate the Oklahoma counties, division boundaries and potential projects for each.

SECTION 3:

TRANSIT PROGRAMS

SECTION 3:

TRANSIT PROGRAMS

The Federal Transit Administration (FTA) supports public transportation planning, capital purchases and operations in a number of ways. It administers grant programs to fund the multimodal transportation efforts of MPOs and the State. FTA also provides technical assistance on a broad range of planning and operational topics including regional and statewide planning and programming; corridor planning; environmental project reviews; travel demand forecasting; financial planning; land use planning and public involvement. FTA planning assistance is organized within the following three areas: transportation systems planning, project planning and development, and environmental review of proposed projects. Financial assistance for capital purchases and operational expenses are also available under several of the FTA administered programs.

SECTION 4:

METROPOLITAN PLANNING ORGANIZATIONS PROGRAM

SECTION 4:

METROPOLITAN PLANNING ORGANIZATIONS

SAFETEA-LU requires the metropolitan transportation planning process include the development of a transportation improvement program (TIP) in cooperation with the State and public transit operators. TIPs are developed by MPOs, designated by the governor, and dictate priorities for each individual metropolitan area. The TIPs are included in the STIP without modification.

The Department partners with the state's three major MPO areas (Oklahoma City, Tulsa and Lawton) to ensure consistency between the TIPs and the STIP. These ongoing partnerships strengthen the working relationships between the Department and the MPOs in their day-to-day planning activities.

The Department also coordinates with the Bi-State MPO and the Arkansas DOT in maintaining the planning process for the Ft. Smith area.

METROPOLITAN PLANNING ORGANIZATIONS (MPO)

Association of Central Oklahoma Governments (ACOG)

John G. Johnson, Interim Executive Director

21 East Main, Suite 100

Oklahoma City, Oklahoma 73104

Fax: (405) 234-2200 Telephone: (405) 234-2264

The transportation planning boundary, known as the Oklahoma City Area Regional Transportation Study (OCARTS), includes all of Oklahoma and Cleveland Counties and portions of Canadian, Grady, Logan and McClain Counties.

Lawton Metropolitan Planning Organization (LMPO)

Pat Henry, Chairperson

103 Southwest 4th Street

Lawton, Oklahoma 73501-4078

Fax: (580) 581-3375 Telephone: (580) 581-3573

The transportation planning boundary consists of the area within the Lawton city limits, with minor adjustments, excluding Fort Sill.

Indian Nations Council of Governments (INCOG)

Rich Brierre, Executive Director

2 West 2nd Street, Suite 800

Tulsa, Oklahoma 74103-3123

Fax: (918) 583-1024 Telephone: (918) 584-7526

The transportation planning boundary includes Tulsa County and portions of Creek, Osage, Rogers and Wagoner Counties.

Bi-State Metropolitan Planning Organization

Ken O'Donnell, Study Director

P.O. Box 2067

Ft. Smith, Arkansas 72902

Fax: (479) 785-1964 Telephone: (479) 785-2652

The transportation planning boundary includes portions of LeFlore and Sequoyah counties.

1. INTRODUCTION

1.1 BACKGROUND

The Transportation Improvement Program (TIP) is a cooperatively developed four-year program outlining multimodal transportation improvements and services to be implemented within the Oklahoma City Area Regional Transportation Study (OCARTS) area.

Federal law requires that all Metropolitan Planning Organizations (MPOs) prepare a TIP for their designated region, in cooperation with the State and affected transit operators. The federal surface transportation law, known as the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users—or SAFETEA-LU—was signed into law on August 10, 2005. Metropolitan and statewide transportation improvement programs must be consistent with the planning provisions of SAFETEA-LU, which has been extended by Congress through continuing resolutions beyond its Sept. 30, 2009 expiration date.

The OCARTS Area TIP is prepared biennially by the Association of Central Oklahoma Governments (ACOG) in its role as the MPO for transportation planning within the Central Oklahoma region. This document is prepared under the guidance of the Intermodal Transportation Technical and Policy Committees, and is submitted to the Governor, the Federal Transit Administration (FTA), and the Federal Highway Administration (FHWA) through the Oklahoma Department of Transportation (ODOT).

Projects designated for FFY 2011 are expected to be ready for obligation of federal funds during the period of Oct. 1, 2010 – Sept. 30, 2011. Capital and non-capital projects funded by the Federal Transit Administration, the Federal Highway Administration, and the Federal Aviation Administration are required to be listed in the TIP to be eligible for obligation of federal funds. Other state, county, and locally funded projects may also be included in the TIP for informational purposes.

1.2 TIP PURPOSE AND SCOPE

The FFY 2011-2014 TIP is intended to fulfill the following purposes:

- To serve as a short-range implementation tool to achieve compliance with the goals of the long-range Regional Transportation Plan.
- To provide continuity of current transportation improvement projects with those identified in previous TIPs.
- To identify transportation projects recommended for implementation by transportation mode, type of improvement, funding source(s), and geographical area.
- To estimate the costs of projects proposed for federal funding. The total federal share of project costs is to be consistent with the federal funds anticipated to be available for such projects in the area.
- To establish a prioritization of projects to effectively utilize federal funds as they become available.
- To identify and implement transportation improvements which will reduce congestion, increase mobility and safety, and enhance the region's air quality in conformance with the State Implementation Plan (SIP).

1.3 PRIORITIZATION OF PROJECTS

This TIP includes a listing of projects for FFY 2011, 2012, 2013 and 2014. Those projects included in FFY 2011 are considered to be of the highest priority and most eligible for implementation. This means that local matching funds have been identified, environmental review and site preparation for construction projects have been, or will be, accomplished within the funding period, and the project is anticipated to result in the obligation of federal funds during FFY 2011. Projects for future implementation and of lesser readiness are those identified in the subsequent fiscal years. The projects included in this TIP represent the priorities of the Metropolitan Planning Organization for implementation within the OCARTS area. All projects included in the TIP are consistent with the 2030 OCARTS Plan adopted by the MPO on August 18, 2005, as amended, and the 2005-2030 Oklahoma Statewide Intermodal Transportation Plan dated December 2005.

1.4 PROGRAM BOUNDARY

The geographical area covered by the TIP is coterminous with the metropolitan planning boundary, known as the Oklahoma City Area Regional Transportation Study (OCARTS) area. The OCARTS area includes approximately 2,085 square miles, which encompasses all of Oklahoma and Cleveland Counties and portions of Canadian, Grady, Logan, and McClain Counties¹. The OCARTS area is also designated as the Transportation Management Area (TMA) for the Oklahoma City metropolitan region.

Based on the results of the 2000 Census and revisions to the U.S. Census Bureau's criteria for determining urban and rural territories, on May 1, 2002 the Census Bureau delineated two urbanized areas (UZAs) within the OCARTS TMA: the Oklahoma City UZA and Norman UZA. The new boundaries also excluded significant portions of eastern Oklahoma and Cleveland Counties that had previously been part of the Oklahoma City UZA. Figure 1 reflects the geography of the OCARTS area and the Census 2000 urbanized areas.

Sec. 6016 of SAFETEA-LU states, "for the purpose of any applicable program under Title 23, United States Code, the city of Norman shall be considered to be part of the Oklahoma City urbanized area." Thus, the populations of the Oklahoma City and Norman urbanized areas combined determine the annual suballocation of federal funds that is made available to the region for transportation improvements.² These funds are referred to as Surface Transportation Program Urbanized Area (STP-UZA) funds, and project selection is performed by OCARTS area communities in conformance with federal guidelines. Additional transportation improvements on the interstate, U.S. and state highway system are selected by the State, in consultation with the MPO, from a variety of federal funding sources.

¹ The Intermodal Transportation Policy Committee approved the current OCARTS area boundary on February 28, 2002, by adding 395 square miles in McClain and Cleveland Counties.

² Prior to SAFETEA-LU, the FFY 2003, 2004 and 2005 Appropriation Bills included language to reattach the Norman UZA population to the OKC UZA population for highway funding purposes. The MPO actively pursued the long-term legislative solution to rejoin the two UZAs that was included in SAFETEA-LU to avoid a loss of federal funding for the OCARTS area.

**Figure 1:
OCARTS Transportation
Management Area and
Urbanized Areas**

—

1.5 PROGRAM REVISIONS

Projects included in the TIP may be considered for amendment or revision. Such amendments, which will utilize Surface Transportation Program Urbanized Area (STP-UZA) funds, must not result in exceedance of the STP-UZA planning estimate, as described in Chapter 3. The planning estimate is updated annually when Congress determines an exact spending authority for the fiscal year, and as may be amended thereafter. A mid-year status report on the obligated STP-UZA funds is provided annually by the MPO staff, in accordance with the *Surface Transportation Program Procedures for the Oklahoma City Urbanized Area Funds*, adopted by the Intermodal Transportation Policy Committee (ITPC) on May 28, 1992, and last updated on October 29, 2009. Modifications to the TIP requested by OCARTS area communities or other implementing agencies must have the approval of the ITPC, which conducts a public hearing on each request. Following MPO approval, each amendment is forwarded to ODOT for approval, as the Governor's designee, and inclusion in the Statewide Transportation Improvement Program (STIP).

1.6 AIR QUALITY AND CONFORMANCE WITH SIP

In March 1990, the Environmental Protection Agency (EPA) notified the State that Central Oklahoma had been redesignated an attainment area, after having been classified as nonattainment for carbon monoxide (CO) since 1984. An EPA Final Rule approving the State Implementation Plan (SIP) for Oklahoma County was subsequently published in the Federal Register on August 8, 1991. A special Air Quality Committee was formed in August 1991 to develop an action plan to assist the region in remaining compliant with federal air quality standards. The committee adopted standards upon which to call a "Clean Air Alert Day" and developed voluntary measures by which individuals and employers can help reduce emissions on days vulnerable to a CO or ozone exceedance. Since FY 2000, the MPO has conducted an Air Quality Public Education Campaign, funded primarily with federal Congestion Mitigation/Air Quality (CMAQ) funds.

EPA announced a new initiative called the 8-Hour Ozone Flex program on May 18, 2006. The purpose of the program, as it was with the previous versions (Flexible Attainment Region, 1-Hour Ozone Flex agreement and Early Action Compact), is to support and reward innovative, voluntary, local strategies to reduce ground-level ozone, thereby improving air quality and helping areas maintain attainment with the national ozone standard. In June 2008, the 5-year plan for Central Oklahoma was officially signed and put into place by ACOG, EPA and the Oklahoma Department of Environmental Quality (ODEQ). ACOG is currently in compliance with the plan and has completed the required semi-annual progress reports in December 2008, June 2009, and December 2009.

On March 12, 2008, EPA significantly strengthened its national ambient air quality standards (NAAQS) for ground-level ozone, the primary component of smog. EPA revised the level of the 8-hour standard from 0.08 to 0.075 parts per million (ppm). Then on January 6, 2010, EPA proposed to strengthen standards once again. The proposed revisions are based on scientific evidence about ozone and its effects on people and the environment. EPA has proposed to strengthen the 8-hour "primary" ozone standard, designed to protect public health, to a level within the range of 0.060-0.070 parts per million (ppm). EPA has also proposed to establish a distinct cumulative, seasonal "secondary" standard, designed to protect sensitive vegetation and ecosystems, including forests, parks, wildlife refuges

and wilderness areas. EPA has proposed to set the level of the secondary standard within the range of 7-15 ppm-hours. The public comment period for the new proposal ended in March 2009. The final rule is expected to be announced in August 2010, with final designations now scheduled for August 2011.

Being that EPA is scheduled to make new attainment/non-attainment designations based on the three years of data from 2008-2010, there is one remaining ozone season of data collection before compliance with the new proposed standard can be determined. However, it is clear that Central Oklahoma is precariously close to nonattainment status. Efforts to minimize vehicle-related pollution continue to be a high priority.

More information about Central Oklahoma's air quality status and the region's efforts to remain in attainment with the National Ambient Air Quality Standards can be found in the following reports, which are available from ACOG and online at www.acogok.org: *CY 2009 Air Quality Planning and Summary of CY 2009 Air Quality Public Education Program*.

1.7 TITLE VI AND ENVIRONMENTAL JUSTICE

Title VI of the 1964 Civil Rights Act (42 U.S.C. 2000d-1) states that "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." The Environmental Justice (EJ) Orders (1997) further amplify Title VI by providing that "each federal agency shall make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies and activities on minority populations and low-income populations." Compliance with Title VI and the EJ Orders among recipients of Federal Highway and Federal Transit Administration funds is a priority of the U.S. Department of Transportation that is evaluated during metropolitan and transit authority certification reviews and review of the Statewide TIP.

In compliance with FTA Circular 4702.1a, ACOG, the Central Oklahoma Transportation and Parking Authority (COTPA), and Cleveland Area Rapid Transit (CART) jointly prepare a triennial report documenting that transit services and amenities are provided within the region in a nondiscriminatory manner. The triennial report further documents that the MPO planning process, including information dissemination and participation in the decision-making process, is conducted in a nondiscriminatory fashion. The next Title VI report for the region will be submitted to FTA in April 2010.

Projects included in this TIP represent a balance between transportation needs and anticipated funding. Projects are generally dispersed throughout the OCARTS area, and different improvements affecting different locations are identified each time a new TIP is prepared. Impacts on various socioeconomic groups from large projects that address transportation corridors or modes are generally determined through special planning studies or environmental processes prior to inclusion in the TIP and STIP. Smaller projects to improve the capacity or safety of the existing street network, the transit system or area airports are not anticipated to have a disproportional impact on any particular segment of the region's population.

1.8 PUBLIC INVOLVEMENT

In developing this TIP, the MPO provided citizens, affected public agencies, representatives of transportation agency employees, freight shippers, providers of freight transportation services, private providers of public transportation, and other interested parties with a reasonable opportunity to provide input and to comment on the proposed program. Opportunities for review and comment on the proposed TIP were announced through articles and notices published in metro area newspapers; articles in ACOG's e-newsletter, *Central Oklahoma Perspective*; and public meetings/hearings held by the Intermodal Transportation Technical Committee (ITTC) and the Intermodal Transportation Policy Committee (ITPC). Members of ACOG's Encompass 2035 Citizens Advisory Committee (CAC) and citizens included in the Transportation Users Group mailing list were invited to provide input into the TIP. The Transportation Users Group includes nearly 200 individuals and organizations representing various interests including neighborhoods, environment, business, elderly and disabled citizens, minority populations and travel modes.

A Notice to the Public was published in *The Oklahoman* on April 1, 2010. This notice advised the public of the availability of the preliminary FFY 2011-2014 OCARTS area TIP, the time frame for submitting written comments, and the date, time and location that the preliminary TIP would be considered by the Intermodal Transportation Policy Committee. In addition, notification of the availability of the preliminary TIP and invitation for its review was provided on the ACOG web site and through a media release distributed on April 1, 2010 to over 50 media outlets (print, radio and television). Information on the preliminary TIP was also provided in a March 31 ACOG news brief emailed to approximately 2,000 individuals and organizations.

Finally, Notices of Public Hearing were published in the Journal Record on April 27 and in *The Oklahoman* on April 28, 2010 prior to adoption of the final FFY 2011-2014 OCARTS Area TIP by the ITPC. The public hearing to adopt the final TIP was held by the Intermodal Transportation Policy Committee on May 27, 2010. Copies of the publications and information on other public involvement opportunities are included in Appendix A. The final TIP, and subsequent amendments, will be available on ACOG's Web site.

Comments on this TIP from the public, committee members, or any local organization, whether positive or negative, are handled in the following manner:
➤ All comments are requested to be put in writing and provided to the MPO. ➤ Comments concerning specific projects or proposals are forwarded to the sponsoring agency or jurisdiction. ➤ A copy or summaries of substantive comments are provided to the ITTC and ITPC during their regular meetings for their evaluation. ➤ A written response is provided to the individual or organization concerning recommendations or decisions arising from the ITPC meeting or the sponsoring entity, as appropriate. ➤ Copies of all comments received on the preliminary TIP are included in the final document.

2. OVERVIEW OF PROGRAM ELEMENTS

2.1 STREET AND HIGHWAY ELEMENT

The Street and Highway Element of the TIP includes transportation improvements submitted by cities and counties located within the OCARTS area, as well as projects recommended for funding within the OCARTS area by the Oklahoma Department of Transportation (ODOT). Funding for these projects will utilize a variety of federal funding categories administered by the Federal Highway Administration. Each of the Street and Highway Element projects represent short-range priorities that are located on the Federal Functional Classification System and are consistent with the 2030 OCARTS Plan and the Oklahoma Statewide Intermodal Transportation Plan. The 2030 OCARTS Plan was adopted by the MPO on August 18, 2005, and is incorporated by reference into the Statewide Plan, which was adopted by the Oklahoma Transportation Commission on December 5, 2005.

Street and Highway Element projects include construction, maintenance, and transportation system management (TSM) activities that will impact the regional network. Numerous TSM projects are included in the TIP, which are intended to enhance the efficiency of the existing street network. Examples of these activities include traffic signalization, signal coordination, safety improvements, and intersection redesign. Other improvements involve the widening of streets and bridges, thus increasing capacity to meet travel demand, increase safety, and reduce congestion. Also included in this element are any transportation enhancement activities and the identification of roadway projects that will include sidewalks and/or bicycle paths. Specific information about the Street and Highway Element projects proposed for implementation during FFY 2011 - FFY 2014 is provided in Chapter 3 of this document.

2.2 TRANSIT ELEMENT

Transit services in the OCARTS area include those operated by the Central Oklahoma Transportation and Parking Authority (COTPA) and the University of Oklahoma, Transit Services Division, using Urbanized Area Program funds provided to the Oklahoma City and Norman Urbanized Areas; the City of Edmond's transit service, operated by McDonald Transit; the Elderly and Persons with Disabilities Program, administered by the Department of Human Services; Aging Services Division; and the Non-Urbanized Area Program, administered by the Oklahoma Department of Transportation, Transit Programs Division. Each of these federal programs is funded through the Federal Transit Administration and local matching funds.

SECTION 5307 - URBANIZED AREA TRANSIT SERVICES

COTPA and OU Transit Services provide public transportation through two bus systems, known as METRO Transit and Cleveland Area Rapid Transit (CART), respectively. The Oklahoma City system includes approximately 22 local routes, two trolleybus routes in downtown Oklahoma City, an express route between Norman and Oklahoma City, and five late-night/Sunday routes. METRO Transit also operates shuttles at the OU Health Sciences Center campus in Oklahoma City. The Norman system includes ten local routes serving the OU campus and a large portion of the City of Norman's urbanized area, an express route to and from Oklahoma City and a late-night flex route. In FFY 2009, the total average weekday bus ridership in the OCARTS area was 15,583.

In addition, COTPA participates in a variety of transit services for the elderly and mobility impaired. These include:

- **METRO-Lift** – demand-responsive service for mobility impaired persons, serving the greater Oklahoma City area. CART provides demand responsive services for the Norman area.
- **Share-A-Fare** – reduced cost taxi fares for the elderly and persons with disabilities, which operates 24 hours a day, seven days a week, in coordination with local taxi companies.
- **Discount Bus Program** – half-fare bus service available to persons 60 years of age and older and to persons with disabilities.
- **STEP (Supplemental Transportation for Elderly Persons) Shopping Shuttle** – donation based van service to designated grocery stores for persons 60 years of age and older. The service is underwritten by the Areawide Aging Agency and COTPA.
- **Congregate Meal Transportation** – a donation based transportation service for the senior nutrition project of the Areawide Aging Agency, serving persons 60 years of age and older and persons with disabilities. Funding is provided by the Areawide Aging Agency and COTPA.
- **Interim** – free, one-time demand-responsive taxi service available to the elderly and disabled for essential trips only, when they are unable to secure transportation from any other source. COTPA contracts with the local taxi company to provide the service, which is financed in part by the Areawide Aging Agency and COTPA.
- **Daily Living Center** – a round-trip, door-to-door transportation service for older adults and persons with disabilities to the Daily Living Center, an adult day care center.
- **Helpline** – taxi service for emergency or medical related transportation needs of the homeless operated through a contract with a local taxi company and underwritten by the City of Oklahoma City and COTPA.
- **RSVP (Retired Senior Volunteer Program)** – senior volunteer drivers provide transportation to medical appointments for low and moderate income seniors, using private vehicles, with mileage reimbursement provided by the Areawide Aging Agency.

CART's transit services to the elderly and mobility impaired include:

- **CARTaccess** – origin-to-destination service for individuals who, because of disability, are unable to ride the fixed route buses. CARTaccess vans operate the same hours as fixed route service, and are available within the entire city limits of Norman.
- **Discount Bus Program** – half-fare bus service available to persons 60 years of age and older, persons with disabilities, Medicare cardholders, and ADA cardholders.
- **Cleveland County Express** – a shuttle every Tuesday and Friday offering transportation from Lexington and Noble to Norman and the Social Security Administration in Moore. This shuttle is open to all.

In response to the Americans with Disabilities Act (ADA), the *Section 504/Americans with Disabilities Act Implementation Plan* was prepared by COTPA and adopted by the COTPA Board of Trustees on December 20, 1991. The implementation plan established the official policy of the COTPA Board of Trustees for compliance with the ADA, calling for the phased implementation of fully accessible fixed route service and a complementary paratransit service for persons with disabilities. COTPA has been in full compliance with the ADA since January 1993. In addition, an advisory committee, known as the Special Transportation Advisory Committee (STAC), meets regularly to consider ways to improve transit services for the elderly and persons with disabilities. Recommendations from the STAC are provided to the COTPA Board of Trustees.

OTHER TRANSIT SERVICES IN THE URBANIZED AREA

The City of Edmond provides public transportation through a bus system known as Citylink. Citylink is operated by McDonald Transit, a nationwide operator and manager of transit systems. The system includes five local routes, an express route to and from Oklahoma City, and paratransit service available within the entire city limits of Edmond. Citylink is funded through the City of Edmond's general fund, and contributions from the University of Central Oklahoma, and received FTA Jobs Access and Reverse Commute (JARC), New Freedom, and American Recovery and Reinvestment Act (ARRA) funds in 2009 as a subrecipient to COTPA.

SECTION 5310 - ELDERLY AND PERSONS WITH DISABILITIES PROGRAM

In addition to the transportation services available to the elderly and persons with disabilities provided through COTPA, CART and Citylink, numerous organizations operate wheelchair accessible vehicles under 49 U.S.C., Section 5310. The Section 5310 program gives private, non-profit organizations the opportunity to purchase vehicles, with federal assistance, to transport elderly and disabled clients to meet their everyday needs, including transportation to work, medical appointments, shopping and recreation. Other eligible applicants for these funds can include public bodies approved by the State to coordinate services for elderly persons and persons with disabilities, and public bodies that certify to the Governor that no non-profit corporations or associations are readily available in their area to provide service to meet the special needs of the elderly and disabled.

The Section 5310 funds pay for 83 percent of the capital cost of a wheelchair accessible vehicle [80 percent for non-accessible vehicles], with the local match, operation and maintenance paid for by the sponsoring organization.

The Department of Human Services, Aging Services Division, administers this program. Applications for funding are considered by a subcommittee of the Intermodal Transportation Technical Committee (ITTC). Approvals by the subcommittee are included [by line item] in the TIP, as required for federal funding eligibility.

Review of applications for Section 5310 assistance is performed by the MPD to ensure that the services provided in the OCARTS area are meeting the needs of elderly and disabled persons, and to ensure coordination among Section 5310 providers and the public transit system. Cooperation between operators is encouraged so that the maximum number of patrons can be served.

SECTION 5311 – NON-URBANIZED AREA PROGRAM

The Section 5311 Non-Urbanized Area Program is administered by the Transit Programs Division of the Oklahoma Department of Transportation, which is charged with providing an equitable distribution of funds throughout the State for the administration of public transportation services in non-urbanized areas. There are currently 19 agencies providing rural public transportation service within most of Oklahoma's 77 counties.

Section 5311 funds are provided by the Federal Transit Administration (FTA) for the purchase of capital equipment, administration and operation of the rural transit systems. Rural operators may receive up to 80 percent reimbursement for capital and administrative expenses, and a 50 percent reimbursement for their net operating deficit. Capital expenditures associated with compliance with the Americans with Disabilities Act and the Clean Air Act, as amended, may receive a 90 percent federal share. The local share is provided by the operating agencies receiving the FTA assistance.

In the OCARTS area, Section 5311 funds are provided to the Logan County Historical Society, which operates a system known as the First Capital Trolley, and to Delta Transit in the southern portion of the region. However, only a portion (approximately 25 percent) of Delta Transit's service is provided within the OCARTS area.

2.3 AIRPORT ELEMENT

The OCARTS area contains seven public airports. Most are partially funded through the Federal Aviation Administration. These airports serve a variety of air travel needs ranging from international to regional in scale. Three airports are located in the City of Oklahoma City and include Will Rogers World Airport, Wiley Post Airport and Clarence E. Page Airport. The Oklahoma City Airport Trust oversees operation of these airports, with administrative staff provided by the Oklahoma City Department of Airports. An Airport System Plan guides planning and programming of transportation improvements at these facilities.

Max Westheimer Airport is located in the City of Norman and is operated by the University of Oklahoma. The Cities of Guthrie and Edmond signed an agreement in June 2004 to collaborate on the operation and funding of the renamed Guthrie-Edmond Regional Airport, which is located in Guthrie. Prior to that agreement, the former Guthrie Airport was operated solely by the City of Guthrie. Finally, the Town of Goldsby operates the David J. Perry Airport and the City of Purcell operates the Purcell Municipal Airport located with their jurisdictions.

3. STREET AND HIGHWAY ELEMENT

The Street and Highway Element of this Transportation Improvement Program includes specific projects that will be implemented by various OCARTS area cities and counties and the Oklahoma Department of Transportation during the FFY 2011-2014 short-range planning period.

The improvements that are reflected for FFY 2011 represent the region's highest priorities for enhancing the OCARTS street and highway network. These projects are generally in the design phase, and thus have the greatest level of commitment from the sponsoring entities and the greatest probability of being implemented with federal and local funding resources. Federal rules require that the costs of projects listed in each metropolitan area's TIP are consistent with the federal, state and local funds expected to be available to the area. This TIP is based upon the latest available project cost estimates and revenue expectations.

OCARTS AREA PROJECTS FUNDED FROM PREVIOUS TIPS

The previous OCARTS Area TIP covered FFY 2010-2013. Table 1 includes Street and Highway Element projects that were reflected in a previous TIP and funded during FFY 2009. These OCARTS area improvements represent a total expenditure of nearly \$210 million, including \$42.7 million in funding from the American Recovery and Reinvestment Act of 2009 (ARRA). This includes federal, state, and local funds spent on streets eligible for Federal aid and those portions of the State Highway System [interstates, U.S. highways, and state highways] located within the OCARTS area. [Figure 2](#) identifies the locations of several of the major improvements reflected in Table 1.

STREET AND HIGHWAY ELEMENT FUNDING SOURCES

Several categories of federal funding are available for implementing the Street and Highway Element of the TIP. The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) established the federal funding categories available to states and metropolitan areas. Some categories provide opportunities for funding flexibility among modes. Funding for street and highway improvements is made available annually to the Oklahoma Department of Transportation from the Federal Highway Administration for use throughout the state. SAFETEA-LU calls for urbanized areas with a population greater than 200,000 to receive a suballocation of Surface Transportation Program (STP) funds.

As a result of the 2000 Census and new Census Bureau criteria for defining urbanized areas, the OCARTS area now contains two urbanized areas—the Oklahoma City UZA and the Norman UZA. According to U.S DOT rules, only the Oklahoma City UZA is an eligible recipient of suballocated STP funds (since the population of the Norman UZA is less than 200,000). To avoid a reduction in federal highway funding for the OCARTS area, the City of Norman and the MPO worked with the Oklahoma Congressional delegation to include language in previous annual appropriations, as well as SAFETEA-LU to reattach the two UZAs. Sec. 6016 of SAFETEA-LU accomplishes that goal by stating, “For the purpose of any applicable program under Title 23, USC, the City of Norman shall be considered part of the Oklahoma City Urbanized Area”.

Funding Source Descriptions:

BRF - Bridge Replacement on principal arterial, minor arterial or major collector (80% Federal)

CIRB - County Road and Bridge Funds (100% State)

HSIPG - Highway Safety Improvement Program (100% Federal)

IMG - Interstate Maintenance Funds (100% Federal)

IMY - Interstate Maintenance Funds (100% Federal - 90% IM and Soft Match)

MC - Maintenance Contract (100% State)

OKCY-XTWN - Earmarked funds for I-40 Crosstown Relocation (100% Federal)

SAP - State Aid Program (100% State)

SSP - State Safety Program (100% State)

SSR - State Surface Rehabilitation (100% State)

STIM - Stimulus - American Recovery and Reinvestment Act (ARRA) funds (100% Federal)

STP - Surface Transportation Program Funds (80% Federal)

STP-UZA - Surface Transportation Program Urbanized Area funds (80% Federal)

STPG-UZA - Surface Transportation Program Urbanized Area Safety funds (100% Federal)

STPY - Surface Transportation Program Funds (100% Federal - 90% STP and Soft Match)

Sec1702Y - Discretionary Funds

Figure 2:
Major OCARTS Improvements FFY 2009

DISTRIBUTION OF SURFACE TRANSPORTATION PROGRAM FUNDS

According to SAFETEA-LU, each State must set aside 10 percent of its STP funds for transportation enhancement activities, which are described in greater detail below. The set-aside of 10 percent previously required (under TEA-21) for safety construction activities was eliminated beginning in FFY 2006. These activities (i.e. hazard elimination and rail-highway crossing improvements) are now funded separately under the Highway Safety Improvement Program (HSIP). The HSIP allows states to target funds to their most critical safety needs, which are to be identified and prioritized in the *State Strategic Highway Safety Plan*.

The remaining 90 percent of the State's STP funds, after the enhancement set-aside, is divided among sub-state areas, which includes 62.5 percent that is provided to urbanized areas with populations over 200,000. The STP funds suballocated to urbanized areas greater than 200,000 population (like the Oklahoma City Urbanized Area) are distributed to the individual urbanized areas on the basis of population.

The normal funding ratio for STP funds is 80 percent federal. The remaining 20 percent is to be provided by the state or local government sponsor. However, federal rules allow up to 10 percent of the total STP funds to be spent at 100 percent of the project cost, with no local match, for eligible safety projects defined in the law.

SURFACE TRANSPORTATION PROGRAM URBANIZED AREA FUNDS (STP-UZA)

As described in the previous section, the Oklahoma City Urbanized Area (UZA) receives an annual distribution of Surface Transportation Program (STP) funds, which are referred to as STP-UZA funds.

Selection of STP-UZA funded projects for inclusion in the TIP is performed in accordance with the *Surface Transportation Program Procedures for the Oklahoma City Urbanized Area Funds*, as originally adopted by the Intermodal Transportation Policy Committee (ITPC) on May 28, 1992 and updated as needed. The STP-UZA projects requested by local governments are evaluated and prioritized in accordance with the adopted *Criteria and Process for Evaluation of STP-UZA Projects* each year with the development of the new TIP.

The evaluation process is comprised of four major components: evaluation criteria, project categories, criteria weighting, and project rating.

The seven evaluation criteria include:

1. average daily traffic
2. volume-to-capacity ratio
3. accident severity rate (based on a three year history)
4. air quality impacts
5. surface condition
6. CMP congestion corridor
7. project readiness

These criteria were chosen to represent the mobility, environmental, and social factors important to the development of an efficient transportation system and the ability of a project to be ready for letting during the fiscal year of the TIP for which it is submitted.

The categories of projects included in the evaluation process are:

1. widening (including railroad/highway grade separation)
2. new construction
3. intersection/safety improvements
4. resurfacing, reconstruction, rehabilitation, restoration
5. bridge improvements
6. transit, park-and-ride, high occupancy vehicle lanes
7. independent bicycle and pedestrian facilities/projects
8. carpool/vanpool administration, other
9. safety projects (eligible for 100 percent federal funds)

The evaluation process utilizes a system of weights to establish the relative importance of the different criteria for the project categories, and a rating guide is used to assess how a project measures against each criterion.

In October 2009, the Intermodal Transportation Policy Committee updated the STP-UZA Procedures to allow all MPO-member local governments within the OCARTS area to apply for the region's STP-UZA funds. Prior to this policy change, eligible applicants were restricted to local governments located wholly or partially within the combined Oklahoma City and Norman Urbanized Areas. Copies of both the STP-UZA Procedures and the STP-UZA Evaluation Criteria are available at the ACOG offices and on the website at www.acogok.org.

SURFACE TRANSPORTATION PROGRAM URBANIZED AREA SAFETY (STP-UZA SAFETY) FUNDS

As mentioned above, up to 10 percent of the total STP-UZA funds may be spent on the construction costs of eligible safety improvements, and may be funded with up to 100 percent federal funds. The STP-UZA Evaluation Criteria described above incorporates the MPO's policy for selecting and funding safety projects. The 10 percent limit for any given year may be exceeded, provided the cumulative total of all STP-UZA funds apportioned to the urbanized area does not exceed the 10 percent maximum.

SURFACE TRANSPORTATION PROGRAM ENHANCEMENT FUNDS

The Oklahoma Transportation Commission (OTC) updated its policy in June 2009 for administration of the State's Transportation Enhancement Program funds. The OTC approved a minimum annual dedicated funding of \$6 million for five ODOT-sponsored enhancement programs in the following categories: 1) Statewide Accessibility Program, 2) Statewide Bicycle/Pedestrian Program, 3) Statewide Facilities Improvement Program, 4) Control and Removal of Outdoor Advertising Program, and 5) Statewide Tree Grant Program.

Projects that utilize the remaining transportation enhancement funds (approximately \$6 million/year) are selected on a competitive basis, based on applications submitted by local governments and public agencies. ODOT uses a biennial application cycle, covering two years worth of funds, to allow more time for project implementation between funding selections.

Applications for STP enhancement funds are reviewed and prioritized by the Transportation Enhancement Advisory Committee (TEAC), consisting of State agencies and organizations with broad-based interests in areas encompassed by the enhancement program. Representatives of the metropolitan planning organizations for the Oklahoma City, Tulsa and Lawton metropolitan areas are included on the committee. Funding recommendations are forwarded to the Oklahoma Transportation Commission for final approval. Approved enhancement proposals located within Central Oklahoma are included in the OCARTS Area TIP prior to the authorization of federal funds.

FISCAL CONSTRAINT OF THE FFY 2011-2014 URBANIZED AREA FUNDS

This TIP was prepared based on an estimated amount of funds available to the OCARTS area over the TIP time frame for the combined Oklahoma City and Norman urbanized areas. To ensure that the region's STP-UZA projects are financially constrained, an estimated apportionment for the Oklahoma City Urbanized Area was determined in consultation with the Programs Division of the Oklahoma Department of Transportation (ODOT). The estimate reflected a five percent reduction in the STP-UZA apportionment that was received in FFY 2009 and has been held constant over the four-year TIP period due to the uncertainty of future balances in the Highway Trust Fund and the content of the next surface transportation law that will replace SAFETEA-LU.

In addition, a new SAFETEA-LU requirement began Dec. 11, 2007, which requires revenue and cost estimates for the TIP to use an inflation factor to reflect year of expenditure dollars. In conformance with the inflation factors used by the ODOT Project Management Division, the STP-UZA project estimates include a 3% inflation factor for FFY 2011, 6% for FFY 2012, 9% for FFY 2013, and 12% for FFY 2014.

The STP Procedures for the Oklahoma City Urbanized Area Funds call for 90 percent of the estimated funds to be used when preparing a TIP. This is intended to avoid a potential shortage of funds at the end of the fiscal year caused by low TIP estimates, unusually high bids, cost overruns or other unforeseen events. The estimate serves as the planning cap for STP-UZA funded projects for each year of the TIP, and may not be exceeded by future amendments. As final funding figures are provided and/or additional obligation authority is received, the figures will be updated. Appendix C provides additional information about the estimated federal funds for the Oklahoma City Urbanized Area, upon which this TIP is based.

The first year of this TIP includes 17 projects, including 5 safety projects, proposed for funding with STP-UZA funds. This represents a total of \$16,672,500 in federal funds. The FFY 2012, 2013 and 2014 programs propose STP-UZA totals of \$16,672,500, \$16,387,670 and \$16,571,042, respectively, which are within the planning estimate for the OCARTS area.

FFY 2011 - FFY 2014 STREET AND HIGHWAY ELEMENT PROJECTS

The following pages describe the street and highway projects proposed for implementation within the OCARTS area during this TIP time frame.

The FFY 2011 program includes a listing of local government-sponsored projects proposed for funding with STP-UZA funds, followed by a listing of OCARTS area projects prepared in cooperation with the Oklahoma Department of Transportation (ODOT), which are located on the State Highway System (includes interstates, state highways and U.S. highways). Each project is identified by location, project type, federal funding source, and the source of matching funds. The federal funds identified in the ODOT list are provided to the State of Oklahoma and are attributable to the State's obligation authority. The local government and State-sponsored projects are followed by Table 2, which provides a summary of the FFY 2011 program by location and funding category. Table 3 provides the FFY 2011 budget summary for the OCARTS area street and highway projects.

Similar project lists and summary tables are provided for the FFY 2012, FFY 2013 and FFY 2014 programs. Tables 4 and 5 summarize the FFY 2012 projects, Tables 6 and 7 summarize the FFY 2013 projects and Tables 8 and 9 summarize the FFY 2014 projects. Table 10 follows this information, which is a budget summary for the Street and Highway Element for all four years of this TIP combined.

[Figure 3](#), at the end of this chapter, reflects the general locations of the proposed STP-UZA Street and Highway Element improvements listed in this TIP for FFY 2011-2014.

Figure 3:
FFY 2011-2014 OCARTS Transportation Improvement Projects

4. TRANSIT ELEMENT

This chapter includes information on the capital, operating and planning costs proposed for public transportation within the OCARTS area during this TIP time frame. As discussed in Chapter 2, these services are operated by the Central Oklahoma Transportation and Parking Authority (COTPA) as METRO Transit, the University of Oklahoma as CART, the City of Edmond as Citylink (under contract with McDonald Transit) and various non-profit organizations and two rural public transportation agencies. It should be noted that Citylink is primarily locally funded and is not a direct recipient of federal formula funds. Any subsequent federal funds it may receive as a subrecipient of COTPA will be reflected in this TIP through the TIP amendment process.

Detailed project and cost information is provided in this chapter for each TIP year for the above listed public transportation operators (with the exception of Citylink). This document includes a line item for vehicles purchased with FTA Sec. 5310 funds to serve elderly and disabled citizens. A summary of all proposed FFY 2011 Transit Element programs, by funding source, is provided at the end of this chapter as Table 11.

URBANIZED AREA PROGRAM

COTPA and CART provide fixed route, express and paratransit services each weekday, with some routes including Saturday service. COTPA provides subscription service to those entities that budget local funds to support the transit operation serving their citizens. Other demand responsive public transportation services available to the elderly and persons with disabilities are described in Chapter 2. In July 2009, the City of Edmond began operation of Citylink which provides fixed route bus service to Edmond residents and students at the University of Central Oklahoma (UCO), paratransit service throughout the City of Edmond, and express bus service between Edmond and downtown Oklahoma City.

This chapter includes proposed federal funds and local match to support the METRO Transit bus system in the greater Oklahoma City area and CART in Norman during the FFY 2011-2014 TIP time frame. Small urbanized areas (less than 200,000 pop.), like Norman, may use their Sec. 5307 funds for operating expenses as well.

Many of the capital projects included in the attached lists will be funded with 80 percent Section 5307 funds administered by the Federal Transit Administration and matched with 20 percent local funds. COTPA and CART operate fully accessible bus systems in compliance with the Americans with Disabilities Act of 1990, which includes access for persons in wheelchairs. Expenditures associated with the purchase of accessible vehicles or the purchases of equipment to comply with the ADA are eligible for funding at an increased federal share of 83 percent.

The Section 5307 Urbanized Area Program funds are apportioned by a statutory formula based on population, population density, and transportation data for Census-designated urbanized areas. In the OCARTS area, this includes the Oklahoma City UZA and the Norman UZA. Another federal funding source

sometimes utilized by the transit providers is the Sec. 5309 Discretionary Capital Program. Under SAFETEA-LU, the Jobs Access and Reverse Commute (JARC) Program was converted from a discretionary program to a formula program, and the New Freedom Program is a new category that will fund transit capital and operating expenses that go beyond the requirements of the Americans with Disabilities Act in assisting the elderly and persons with disabilities. Both JARC and New Freedom projects are competitively selected and consistent with the locally developed Coordinated Public Transit-Human Services Transportation Plan.

COTPA's transit program for FFY 2011 includes a total estimate of nearly \$14.5 million. Of this amount, the federal government will fund approximately \$11.6 million, with the remaining \$2.8 million provided locally. Federal funding sources include FTA Sec. 5307, Sec. 5509/Small Starts, and FHWA Congestion Mitigation/Air Quality (CMAQ) funds also proposed for transfer to FTA.³ These figures include funding that COTPA hopes to receive to further the development of fixed guideway infrastructure and alternatives analysis studies.

The FFY 2011 program for CART is nearly \$2.3 million, with approximately \$1.4 million coming from federal sources and \$873,000 from local funds.

³ The CMAQ Program is a Federal Highway Administration (FHWA) funding category designed to assist states and metropolitan areas maintain or regain compliance with federal air quality standards through measures that will reduce automobile emissions. It is a flexible funding source that can be transferred from FHWA to FTA to fund transit projects that assist with air quality attainment. Historically, some of the State's CMAQ funds have been provided to the OCARTS area and a portion utilized by the transit agencies to help enhance the region's air quality.

ELDERLY AND PERSONS WITH DISABILITIES PROGRAM

The FTA Section 5310 Elderly and Persons with Disabilities Program provides capital assistance, through the states, to organizations that serve the specialized transportation needs of the elderly and persons with disabilities. Federal matching funds pay for 83 percent of the cost of accessible vehicles with the remainder paid for by the requesting organization. Each Section 5310 recipient is also responsible for ongoing maintenance and operation costs once the vehicle has been acquired.

The Aging Services Division of the Department of Human Services (DHS) administers Oklahoma's Section 5310 program. DHS submits an annual statewide application to the Federal Transit Administration in order to utilize the funds apportioned to Oklahoma. The amount of Sec. 5310 funding spent within the OCARTS area varies each year and is dependent upon the level of requests from local non-profit organizations, as well as the total funds available to the state.

The MPO utilizes a subcommittee of the Intermodal Transportation Technical Committee to review all applications within the OCARTS area to ensure coordination among federally assisted public and private transportation operators within Central Oklahoma. All approvals by the subcommittee are considered a part of this TIP, as required for federal funding eligibility, pursuant to the following line item. Prior to MPO review of the OCARTS area Sec. 5310 applications, DHS selects the most worthy projects for consideration, in conformance with the statewide Coordinated Public Transit-Human Services Transportation Plan.

PROJECT DESCRIPTION	FEDERAL SHARE	LOCAL SHARE	TOTAL
Vehicles purchased with FTA Sec. 5310 funds to serve elderly and disabled citizens	To be determined by future funding requests from non-profit organizations		

PUBLIC TRANSPORTATION PROGRAM FOR NON-URBANIZED AREAS

The Transit Programs Division of the Oklahoma Department of Transportation administers the Section 5311, Non-urbanized Area Program. The Department is charged with providing an equitable distribution of funds throughout the state for the administration of public transportation services in non-urbanized areas. There are currently 19 agencies providing rural public transportation service within most of Oklahoma's 77 counties

Section 5311 funds are provided by the Federal Transit Administration (FTA) for the purchase of capital equipment, administration and operation of the transit systems. The transit operators receive an 80 percent reimbursement for capital and administrative expenses, and a 50 percent reimbursement for their net operating deficit. Capital expenditures associated with compliance with the Americans with Disabilities Act may receive a 90 percent federal share. The local share is provided by organizations within the areas receiving the FTA assistance.

In the OCARTS area, Section 5311 funds are provided to the Logan County Historical Society, which operates a system known as the First Capital Trolley. The following information reflects a total program of nearly \$4.8 million for First Capital Trolley over the four-year TIP time frame. The FTA will fund approximately \$1.6 million for the service and local funds will cover the remaining \$2.8 million. The estimates for FFY 2012, FFY 2013 and FFY 2014 will be further refined in subsequent fiscal years.

In addition, Delta Public Transit operates partially within the OCARTS area. Approximately 25 percent of its total passenger trips, or 23,000 annual trips, occur within the Purcell area at the south end of the OCARTS transportation planning area. For the four-year TIP period, the Delta Public Transit system will be funded with nearly \$1.5 million, using federal and local funding sources as reflected in the subsequent table.

5. AIRPORT ELEMENT

This chapter includes a listing of proposed capital improvements for Will Rogers World Airport, Wiley Post Airport and Clarence E. Page Airport, located in Oklahoma City. Also included are proposed improvements for Max Westheimer Airport, which is operated by the University of Oklahoma in Norman, and regional airports located in the municipalities of Guthrie, Goldsby and Purcell.

The Oklahoma City airport improvements included in this chapter were obtained from the Oklahoma City Department of Airports, and the University of Oklahoma, Architectural and Engineering Services, provided the improvements recommended for Max Westheimer Airport. The airport director for the Guthrie-Edmond Regional Airport, the City of Purcell, and the Town of Goldsby did not submit any projects for their respective airports for inclusion in this TIP. Each of the following airport improvements is listed by airport, and includes the proposed year of implementation, proposed federal and local funding sources, and estimated costs by funding source.

The Federal Aviation Administration provides federal funding for airport improvements under the Airport Improvement Program [AIP]. The federal share of the improvements varies from 75 percent to 90 percent, depending on the eligibility of the projects. Other projects included in the attached lists will be accomplished with 100 percent local funds or a combination of state and local funds.

The following list of improvements proposed for the OCARTS area airports represent a total expenditure of nearly 86.3 million over the TIP period. Of this total, approximately \$40.6 million will be requested from the Federal Aviation Administration, \$104,500 will be requested from the Oklahoma Aeronautics and Space Commission [OASC], and the remaining \$45.5 million will be provided through local funds. A summary of the total capital improvement funds recommended for each year of this TIP time frame for the OCARTS area airports is provided at the end of this chapter in Table 12.

**ADOPTING RESOLUTION
AND MPO SELF-CERTIFICATION**

ADOPTING RESOLUTION

JUL 07 2010

**JOINT RESOLUTION BETWEEN THE
OCARTS METROPOLITAN PLANNING ORGANIZATION AND THE
OKLAHOMA DEPARTMENT OF TRANSPORTATION**

BY JLS

A RESOLUTION TO ADOPT THE FFY 2011-2014 TRANSPORTATION IMPROVEMENT PROGRAM FOR THE OCARTS TRANSPORTATION MANAGEMENT AREA:

WHEREAS, the Association of Central Oklahoma Governments (ACOG), as the Metropolitan Planning Organization (MPO) designated by the Governor of the State of Oklahoma for the Oklahoma City Metropolitan Area, is responsible for the operation and maintenance of a comprehensive, cooperative and continuing transportation planning process designed to prepare and adopt transportation plans and programs; and

WHEREAS, the transportation planning process within the OCARTS Transportation Management Area is carried out by the MPO through a Memorandum of Understanding with the Oklahoma Department of Transportation, the Central Oklahoma Transportation and Parking Authority and the University of Oklahoma Transit Services/CART, and

WHEREAS, the Governor of the State of Oklahoma has designated the Oklahoma Department of Transportation as the state agency responsible for review and approval of Transportation Improvement Programs developed in Oklahoma under the requirements of Section 134 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), by letter dated March 20, 2003; and

WHEREAS, a Transportation Improvement Program for the OCARTS Transportation Management Area, containing multimodal transportation projects expected to be carried out in the period FFY 2011 through FFY 2014, has been prepared through the planning process; and

WHEREAS, opportunities for citizens, affected public agencies, private providers of public transportation, and other interested parties to participate in and have their views considered in the development of the TIP were provided through public meetings and public notice;

NDW, THEREFORE, BE IT RESOLVED that the Intermodal Transportation Policy Committee of the Association of Central Oklahoma Governments, as the Metropolitan Planning Organization, and the Oklahoma Department of Transportation, hereby adopt the FFY 2011-2014 Transportation Improvement Program for the OCARTS Transportation Management Area,

Date 5/27/10

METROPOLITAN TRANSPORTATION PLANNING PROCESS SELF-CERTIFICATION

The Oklahoma Department of Transportation (ODOT) and the OCARTS (Oklahoma City Area Regional Transportation Study) Metropolitan Planning Organization for the Oklahoma City Transportation Management Area hereby certify that the transportation planning process is being carried out in accordance with all applicable requirements including:

- 1) 23 U.S.C. 134 and 49 U.S.C. 5303;
- 2) Title VI of the Civil Rights Acts of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- 3) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- 4) Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- 5) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- 6) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et. seq.) and 49 CFR parts 27, 37, and 38;
- 7) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- 8) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- 9) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

MEDIA RELEASE

For Immediate Release: April 1, 2010

Media contact: Holly Massie, 234-2264

TRANSPORTATION IMPROVEMENT PROGRAM COMMENTS SOUGHT

ACOG is inviting citizens throughout Central Oklahoma to review and comment on a preliminary version of the next Transportation Improvement Program (TIP).

The TIP identifies all federally funded surface transportation projects (transit, bicycle, highway, airport, etc.) expected to be carried out by city, county, state and local transportation agencies during federal fiscal years 2011-2014 in the Oklahoma City Area Regional Transportation Study (OCARTS) Area. This region includes Oklahoma and Cleveland Counties and parts of Canadian, Grady, Logan and McClain Counties.

Federal law recognizes ACOG as the metropolitan planning organization responsible for long and short-range transportation planning for Central Oklahoma. As such, ACOG maintains a four-year TIP for the region, which will implement the long-range plan.

The Oklahoma Department of Transportation, the Central Oklahoma Transportation and Parking Authority (COTPA), operator of METRO Transit in Oklahoma City, Cleveland Area Rapid Transit (CART) in Norman and other local governments and transportation agencies developed the preliminary TIP and will implement activities outlined in the program.

Beginning April 1, copies of the preliminary TIP will be available for citizens' review at metropolitan area libraries and on the ACOG Web site at www.acogok.org. Those interested in requesting a copy may contact Holly Massie, ACOG, at 234-2264. Written comments on the TIP will be accepted through April 27.

NOTICE TO THE PUBLIC
OF THE AVAILABILITY
OF THE PRELIMINARY
TRANSPORTATION
PROGRAM
FOR THE OKLAHOMA
CITY TRANSPORTATION
MANAGEMENT SYSTEM
The Association of Central Oklahoma Governments (ACOG), as the Metropolitan Planning Organization for the Oklahoma City metropolitan area, annually develops a transportation improvement program (TIP) that identifies transportation projects to be implemented with federal transportation funds during the upcoming four-year period. The FY 2011-2014 TIP will be available for public comment from October 1, 2010 to September 30, 2014. The Oklahoma City Transportation Management System includes all of Oklahoma and portions of Canadian, Oklahoma, and McClain Counties. Federal funds for implementing transportation projects are provided by the Federal Highway Administration, the Federal Transit Administration, and the Federal Aviation Administration. Funds are matched with local funds provided by the sponsoring city, county, or transit agency. A preliminary TIP has been developed by ACOG's member governments and participating transit agencies. The preliminary TIP consists of transportation priorities (street and transit) and site points that have been developed within the comment period. The time frame, with regard to proposed transit improvements, this public TIP is intended to satisfy the Program of Projects (POP) public notice requirements of the federal transportation law. The POP is the federal equivalent of the TIP. Anyone wishing to review the preliminary TIP may view it on line at www.acogok.org or at the ACOG office at 21 E. Main Street, Suite 100, Oklahoma City, OK 73104-2405. (405) 234-2217. Written comments will be accepted through Tuesday, April 27, 2010. The proposed TIP, along with all written comments, will be presented to the Metropolitan Transportation Council (MTC) for approval on Thursday, April 29, 2010.

NOTICE OF PUBLIC HEARING CONCERNING THE PROPOSED FUNDING OF THE TRANSPORTATION IMPROVEMENT PROGRAM FOR THE OKLAHOMA CITY TRANSPORTATION MANAGEMENT AREA. Notice is hereby given that the Intermodal Transportation Policy Committee (ITPC), of the Oklahoma Department of Transportation (ODOT), the Metropolitan Area Council (MAC), the Metropolitan Planning Organization for the Oklahoma City Metropolitan Area (MPO), and the Oklahoma City Transportation Management Area will hold a public hearing to consider final approval of the FY 2011-2014 Transportation Improvement Program (TIP) during its regular May meeting. The ITPC meeting will be held on Thursday, May 27, 21 E. Main Street, Suite 100, Oklahoma City, Oklahoma. The FY 2011-2014 TIP is a four-year program that will fund transportation improvements to be funded with federal, state, and local funds within the Oklahoma City Transportation Management Area (TMA) between October 1, 2010 and September 30, 2014. The Oklahoma City TMA includes all of the Oklahoma City and Counties and portions of Canadian, Greer, Logan, and McClain Counties. The TIP is developed by the Oklahoma Department of Transportation (ODOT), Central Oklahoma Transportation Management Area (COTMA), Cleveland Area Rapid Transit (CART), the Oklahoma City Department of Airports, and other local agencies and organizations responsible for the maintenance of transportation facilities and services within Central Oklahoma. The TIP is prepared in accordance with the guidelines issued by the Federal Highway Administration and the Federal Transit Administration. With respect to proposed public transportation improvements for COTMA and CART included in the TIP, the public notice, public hearing, public review and comment deadlines, and public hearing for the FY 2011-2014 TIP are intended to satisfy the Program of Projects (POP) public involvement requirements of the Federal Transit Administration. The POP is the equivalent of the Transit Element of the TIP. Transportation improvements included in the FY 2011-2014 TIP are consistent with the 2030 OCAT's Plan and the Oklahoma Statewide Intermodal Transportation Plan and are within the financial constraints of anticipated funding for the region over the TIP time frame. The proposed TIP will be submitted to ODOT for inclusion in the Statewide Transportation

NOTICE OF PUBLIC HEARING
CONCERNING THE PROPOSED
ADOPTION OF THE FFY 2011-2014
TRANSPORTATION
IMPROVEMENT PROGRAM FOR
THE OKLAHOMA CITY
TRANSPORTATION
MANAGEMENT AREA

Notice is hereby given that the Intermodal Transportation Policy Committee (ITPC) of the Association of Central Oklahoma Governments (ACOG), the Metropolitan Planning Organization for the Oklahoma City Transportation Management Area will hold a public hearing to consider final approval of the FFY 2011-2014 Transportation Improvement Program (TIP) during its regular May meeting. The TPC meeting will be held on Thursday, May 27, 2010, at 1:28 p.m., at 21 E. Main Street, Suite 100, Oklahoma City, Oklahoma.

The FFY 2011-2014 TIP is a four-year program that describes transportation improvements to be funded with federal, state and local funds within the Oklahoma City Transportation Management Area (TMA) between October 2010 and September 30, 2014. The Oklahoma City TMA includes all of Oklahoma and Cleveland Counties and portions of Canadian, Grady, Logan, and McClain Counties. The TIP is developed by local governments, the Oklahoma Department of Transportation (ODOT), Central Oklahoma Transportation and Parking Authority (COTPA), Cleveland Area Rapid Transit (CART), the Oklahoma City Department of Airports, and other local agencies responsible for implementation of transportation facilities and services within Central Oklahoma.

The TIP is prepared in accordance with the guidelines issued by the Federal Highway Administration and the Federal Transit Administration. With regard to proposed public transportation improvements for COTPA and CART included in the TIP, the public notice, public involvement activities, public review and comment deadlines, and public hearing for the FFY 2011-2014 are intended to satisfy the Program of Projects (POP) public involvement requirements of the Federal Transit Administration. The POP is the equivalent of the Transit Element of the TIP.

Transportation improvements included in the FFY 2011-2014 TIP are consistent with the 2030 OCARTS Plan and the Oklahoma Statewide Intermodal Transportation Plan, and are within the financial constraints of anticipated funding for the region over the TIP time frame. The metropolitan area TIP will be submitted to ODOT for inclusion in the Statewide Transportation Improvement Program (STIP), upon its approval by the ITTC.

The Preliminary FFY 2011-2014 TIP is on the ACOG Web site at www.acogok.org, is available at all metro area public libraries, or a copy may be obtained by contacting Ellen Owens at ACOG, 21 E. Main Street, Suite 100, Oklahoma City, OK 73104, (405) 234-2264, TTY 234-2217. Written comments will be accepted through 6:00 p.m., May 25, 2010, and anyone may attend the ITPC public hearing to express their opinions.

MEMORANDUM

DATE: January 8, 2010

TO: Intermodal Transportation Technical Committee

FROM: Holly Massie, Special Programs Officer
Transportation Planning & Data Services

SUBJECT: Estimated Surface Transportation Program Urbanized Area (STP-UZA) Funds for Development of the FFY 2011-2014 OCARTS Area Transportation Improvement Program

INFORMATION:

To ensure that the OCARTS Area Transportation Improvement Program (TIP) will be financially constrained, an estimated apportionment of STP-UZA funds for the Oklahoma City Urbanized Area has been developed in consultation with the Programs Division of the Oklahoma Department of Transportation (ODOT). The figures below reflect a five percent reduction in the STP-UZA apportionment that was received in FFY 2009, and the amount will be held constant over the four-year TIP period. This was done due to the uncertainty of future balances in the Highway Trust Fund and the content of the next surface transportation law that will replace SAFETIA-LU.

The estimated apportionment is also based on the combined populations of the Oklahoma City Urbanized Area (UZA) and Norman UZA by assuming that appropriate language will be included in the next reauthorization bill to attach the two UZAs for the purpose of funding federal aid highway programs under Title 23 of the United States Code.

As you will recall, a new SAFETEA-LU requirement began December 11, 2007, which requires revenue and cost estimates for the TIP to use an inflation factor to reflect year of expenditure dollars. The inflation factors applied to the STP-UZA project cost estimates are consistent with those used by the ODOT Project Management Division.

ACOG's *STP Procedures for the Oklahoma City Urbanized Area Funds* call for 90 percent of the estimated apportionment to be used in preparing the TIP. This is intended to avoid a shortage of funds at the end of the fiscal year due to changes in cost estimates or unanticipated high bids. Also, federal rules allow 10 percent of the estimated STP distribution to be used to finance 100 percent of the

construction cost of eligible safety projects. Below are the estimated annual STP-UZA (80% federal) and STP-UZA Safety (100% federal) funds to be used to develop the TIP recommendations.

FFY	Estimated Apportionment*	90% of Estimated Apportionment	STP-UZA (80%/20%)	STP-UZA Safety (100%)
2010-2013	\$18,525,000	\$16,672,500	\$15,005,250	\$1,667,250

* Figure is rounded.

Resolution

Joint resolution between the Indian Nations Council of Governments and the Oklahoma Department of Transportation

A RESOLUTION TO ADOPT THE FFY 2011 – 2014 TRANSPORTATION IMPROVEMENT PROGRAM FOR THE TULSA TRANSPORTATION MANAGEMENT AREA

WHEREAS, the Indian Nations Council of Governments, as the Metropolitan Planning Organization designated by the Governor of the State of Oklahoma for the Tulsa Metropolitan Area, is responsible for the operation and maintenance of a comprehensive, cooperative and continuing transportation planning process designed to prepare and adopt transportation plans and programs; and

WHEREAS, the transportation planning process is carried out by the Indian Nations Council of Governments through a Memorandum of Understanding with the Oklahoma Department of Transportation and the Metropolitan Tulsa Transit Authority, adopted April, 1975 and updated June, 2010; and

WHEREAS, the Governor of the State of Oklahoma has designated the Oklahoma Department of Transportation as the state agency responsible for review and approval of Transportation Improvement Programs developed in Oklahoma under the requirements of Section 134, Title 23, United States Code, by letter dated October 2, 1995; and

WHEREAS, a Transportation Improvement Program for the Tulsa Transportation Management Area, containing highway, transit, bicycle/pedestrian, airport, and air quality improvement projects expected to be carried out from FFY 2011 to FFY 2014, has been prepared through the planning process; and

WHEREAS, opportunities for citizens, affected public agencies, private providers of public transportation, and other interested parties to participate in and have their views considered in the development of the Transportation Improvement Program were provided through public meetings and public notices;

NOW, THEREFORE BE IT RESOLVED that the Indian Nations Council of Governments, as the Metropolitan Planning Organization, hereby endorses the approval of the FFY 2011 – 2014 *Transportation Improvement program* by the Transportation Policy Committee, and the Oklahoma Department of Transportation hereby adopts the FFY 2011 – 2014 *Transportation Improvement Program* for the Tulsa Transportation Management Area.

Introduction & Background

The Tulsa metropolitan region's changing pattern of land development and travel demand requires a continuous program of managing and improving the area's surface transportation system. The availability of good surface transportation facilities and services has always been one of the major factors affecting industrial location, commercial activity, and residential development in a changing metropolitan environment. In fact, the transportation system plays a central role in the lives of the citizens of the region as they go about their daily business and activities. If the metropolitan area is to enjoy an enhanced quality of life and maintain a competitive position both regionally and nationally, a transportation improvement program is necessary to assure that the transportation system is positioned to make a positive contribution.

The *Federal Fiscal Year (FFY) 2011 – 2014 Transportation Improvement Program (TIP)* presents a program of improvements to the surface transportation system within the Tulsa Transportation Management Area (see map on page 4) to be implemented with federal matching funds. The projects, which have a combination of federal, state, and local funding sources, cover a wide range of transportation modes, including streets and highways, public transportation, bicycle and pedestrian facilities, and airport improvements. Planned improvements include new construction; expansion of existing services and facilities; operation, maintenance and reconstruction of existing facilities; efficiency improvements to increase the effectiveness of existing transportation investments; and projects specifically identified for their ability to maintain the Tulsa area's "clean air" status.

The TIP was prepared by INCOG, the Metropolitan Planning Organization (MPO) for the Tulsa Transportation Management Area (TMA), under the guidance of the Transportation Policy Committee (TPC) and the Transportation Technical Committee (TTC). It represents a cooperative effort between INCOG and its member governments in the Tulsa area, The Metropolitan Tulsa Transit Authority (MTTA), and the Oklahoma Department of Transportation (ODOT).

The TIP serves as a short-range implementation program, identifying projects to be initiated during the upcoming four-year period. Additionally, the TIP is used as a program management tool, to gauge progress toward implementing transportation plans for the region. Specifically, improvements contained within the TIP must be consistent with approved transportation plans, primarily the Regional Transportation Plan (RTP), and the Tulsa Metropolitan Area Major Street and Highway Plan (MSHP), and should reflect progress toward implementation of the plans in light of the overall transportation goals of the metropolitan area.

The TIP is a program of projects for which funding is expected to be available. As a result, the *TIP* reflects the transportation improvements priorities of the region, given the resources available. The Budget Summary on page 3 lists, by funding program, the total funds expected and programmed from all sources (federal, state, and local).

Highlights

Significant improvements in this four-year program include the following projects:

- Reconstruction and expansion of I-44 from Yale Avenue to the Arkansas River
- Reconstruction and expansion of I-44 from the eastern junction with I-244 to SH-167
- Reconstruction of SH-97 from 2nd Street to Morrow Road in Sand Springs
- Construction of a grade-separated interchange at US-75 and 116th St. North near Skiatook
- Preliminary construction on the expressway to expressway interchanges in Tulsa
- Construction of new SH-20 alignment in Claremore
- Transit projects include replacement of various vehicles, installation of passenger shelters and AVL.

TIP Document Organization

The TIP is intended to provide technical information that transportation professionals use in a format that is understandable by anyone interested in surface transportation improvements in the region. To accomplish this, some key features should be noted.

- The projects are grouped by year and within each year they are grouped by County in alphabetical order and then by Job Number.
- Summaries of funding by program for each year follow the project listings
- Because the TIP is a dynamic document, being updated or occasionally amended, a page has been included at the front with information on contacting INCOG's Transportation Division
- Finally, the list of projects will be included in the Programs/Projects section on the web page (www.incog.org/transportation), and will be updated as often as necessary.

Budget Summary FFY 2011 – 2014 Transportation Improvement Program

Project Selection Criteria

ODOT has established a project selection process with the adoption of their Construction Work Plan. This selection process applies to Interstate Maintenance, National Highway System, Surface Transportation Program (outside of the Tulsa Adjusted Urbanized Area), and Bridge Replacement/Rehabilitation projects in the TMA. In cooperation with INCOG, ODOT selects these projects at the Commission District level based on projected available resources and with consideration of ODOT's Needs Study, population, highway system miles, and historical funding trends. This process is documented in the ODOT Construction Work Plan.

INCOG established a process for the prioritization of transportation projects to be funded with Urbanized Area Surface Transportation Program (STP) funds for inclusion into the TIP for the Tulsa Transportation Management Area. In December 2009, The Urbanized Area STP ranking criteria were revised to provide direct application for funding for all communities in the TMA. With the input of local officials through the Transportation Technical Committee (TTC), Transportation Policy Committee (TPC), and INCOG Board of Directors, projects will be evaluated in August 2010, for eligibility and to establish priorities. Candidate projects will be programmed into the TIP based on priorities and the availability of funds, and selected for construction in order of meeting all requirements and being ready to proceed.

Urbanized Area STP funds are spent within the Tulsa Transportation Management Area, but are not used on roads functionally classified pursuant to federal guidelines as local or rural minor collectors, except for bridges. The allocation of Urbanized Area STP funds to the Tulsa Urbanized Area is based on the 2000 Census population within the Census defined Tulsa Urbanized Area boundary. The Adjusted Tulsa Urbanized Area includes the Cities of, Bixby, Broken Arrow, Catoosa, Coweta, Jenks, Sand Springs, Sapulpa, Sperry, and Tulsa and adjacent portions of Creek, Osage, Rogers, Tulsa, and Wagoner Counties. Entities within the Adjusted Tulsa Urbanized Area are eligible to utilize the Urbanized Area STP funds. Projects located outside the defined Urbanized Area boundary may be considered, but must be sponsored by an eligible entity.

Project sponsors submit projects for implementation using Tulsa Urbanized Area STP funds by completing a Transportation Project Rating Form for each project. The form is used to establish project eligibility and to score transportation projects proposed for funding. The prioritization results from the form's scoring system allow fair competition and selection based on the project's individual characteristics, status, and local commitment relative to the other projects. Specifically, projects are evaluated on the following characteristics:

- A. Travel Time Improvements
- B. Safety Improvements
- C. System Maintenance and Management
- D. Project Preparation
- E. Livability
- F. Freight Movement and Intermodal Linkages
- G. Special Benefits

Projects were previously selected and funded through FFY 2013. INCOG anticipates that applications for projects will be solicited in the summer of 2010 for programming in 2014.

Financial Resources

More than \$265 million in federal funds are anticipated to be available to the Tulsa Transportation Management Area over the next four years for surface transportation improvements. The resources are expected from a variety of sources, including Federal Highway Administration funds, Federal Transit Administration funds, and Federal Aviation Administration funds, to be matched with miscellaneous local funds provided by local governments in the Tulsa Transportation Management Area. The Budget Summary on page 3 reflects the funds estimated to be available and the proposed expenditure of funds over the TIP period by funding program, while the Source of Revenue Estimates table (below), identifies the source of the estimated federal funds. Local funds programmed in the TIP are those required to match the federal funds, unless otherwise noted.

Source of Revenue Estimates for the Tulsa TMA

<i>Funding Program</i>	<i>Source of Revenue Estimate</i>
Urbanized Area Surface Transportation Program	Direct allocation to the Tulsa TMA based on the Tulsa Urbanized Area population.
Interstate Maintenance	Coincides with estimates programmed in the Tulsa TMA by ODOT for FFY 2011 – 2014.
Bridge Program	Coincides with estimates programmed in the Tulsa TMA by ODOT for FFY 2011 – 2014.
National Highway System	Coincides with estimates programmed in the Tulsa TMA by ODOT for FFY 2011 – 2014.
Congestion Mitigation and Air Quality	Direct allocation to the Tulsa TMA by ODOT for ozone reduction and congestion reduction projects.
Surface Transportation Program	Coincides with estimates programmed in the Tulsa TMA by ODOT for FFY 2011 – 2014.
Transit Section 5307	MTTA Urbanized formula apportionment from the Federal Transit Administration.
Transit Section 5309	MTTA Urbanized formula apportionment from the Federal Transit Administration.
Metropolitan Planning Program	Direct FHWA Planning Assistance and FTA Section 5303 allocation funds to the Tulsa TMA based on ODOT's distribution formula.
Airport Improvement Program	FAA entitlement and discretionary funds. Local funding is from Passenger Facility Charges.

Public Involvement Process

Public involvement activities related to the development and maintenance of the TIP are detailed in INCOG's Public Involvement Process (Appendix A.)

As a part of the process to develop the TIP there were several public involvement opportunities available to interested area citizens. At each milestone event, upon the request of interested parties, notices were sent out with the lists of submitted projects from the various agencies. Each Technical Advisory Committee (TAC) and Transportation Policy Committee (TPC) was open to the public to allow area citizens to express their views. The document was made available through INCOG's transportation web page and in the INCOG offices. From August 6 through September 9, 2010 the public had opportunities to present their views and opinions regarding the TIP. In August 2010 the TPC approved the TIP. A direct mailing was sent out to the public involvement database to inform the public of the final TIP document. A public notice was also published in local area newspapers. Consideration by the INCOG Board of Directors is scheduled for September 9, 2010.

A total of #,### notices were sent to area citizens. Legal notices were advertised in area newspapers or periodicals. Public Service Announcements were sent to TV stations, newspapers or periodicals, and radio stations. Our web site had over ### visitors from August 6 through September 9, 2010.

The TIP is a dynamic document that is amended from time to time. All amendments to the TIP will have ample opportunity for public review and comment, through media notices, direct mailings to interested parties, and agenda postings on the INCOG internet home page. The TAC and TPC will review all proposed amendments and forward recommendations to the INCOG Board of Directors. All approved amendments will be included in the TIP document and transmitted to ODOT for inclusion in the Statewide Transportation Improvement Program.

Air Quality

The Tulsa Transportation Management Area is in conformity with air quality standards. Based on a 2002 emission inventory for ozone in the Metropolitan Statistical Area (MSA), On-Road Mobile sources accounted for 47% of Volatile Organic Compound emissions, 35% of Nitrogen Oxides emissions, and 67% of Carbon Monoxide emissions. The *Destination 2030* plan estimated emissions from mobile sources will decrease over time due to cleaner vehicles, cleaner fuel, and higher travel speeds. All projects listed in this TIP are consistent with the LRTP.

The Environmental Protection Agency (EPA) standards governing allowable emissions for metropolitan areas mandate that the maximum ozone emissions be measured on a running 8-hour average. Also, the emissions exceedance level must be below 0.075 parts-per-million (ppm). The level will be determined based on the fourth highest emissions level at any monitoring station in the metropolitan area over a three-year average. The TMA has 5 monitoring stations. The EPA implemented the 8-hour standard with the attainment designations April 15, 2004. The TMA, along with the entire State of Oklahoma was designated attainment for the ozone air quality standard.

Also, INCOG entered into an 8-Hour Ozone Flex agreement with the EPA and the Oklahoma Department of Environmental Quality (DEQ). Under this agreement INCOG will voluntarily implemented measures to reduce ozone levels to meet the 8-hour standard should any monitor violate the standard.

Long Range Transportation Plan Compliance

The goals of the *Destination 2030* plan focus on providing a range of transportation choices; providing access to jobs, activities, and services throughout the region; enhancing the livability of the community; promoting the area economy; using resources efficiently, and enhancing the safety and security of the system. Projects in the *TIP* reflect those goals by expanding the modes of transportation, increasing access to employment centers, improving the safety of various components of the surface transportation system, and maximizing the investment in the transportation system in the region.

In the previous TIP progress continued toward implementing the LRTP, as well as other related accomplishments as noted below:

- Continued expansion of I-44 from the Arkansas River east
- Continuation of the Gilcrease Expressway construction from US-75 to the LL Tisdale Expressway and then southwest to I-44
- Construction of the US-75 and 111th Street South interchange in Jenks
- Expansion of US-169 from I-244 to Bird Creek
- Expansion of US-64 from the Creek Turnpike to 111th Street South.
- Several railroad crossing improvement throughout the region
- Numerous bridge maintenance projects throughout the region
- Purchase of new vans and buses for the Metropolitan Tulsa Transit Authority
- Continuation of multi-use trails construction.

Appendix A – Public Involvement Process

Excerpts from the Public Involvement Process for the Tulsa Transportation Management Area.

Transportation Improvement Program

The Transportation Improvement Program (TIP) describes all federally-funded transportation projects or programs that will be carried out over the next three years. These projects or programs must be derived from the LRTP, and therefore, the TIP is an implementation tool of the LRTP. The TIP is developed every two years and lists projects beginning with the subsequent odd-numbered year. INCOG develops the TIP for the Tulsa TMA in cooperation with the ODOT, the Metropolitan Tulsa Transit Authority (MTTA), and airports in the TMA. Because the TIP is a short-term program, it has relatively immediate impact on the transportation system in the region; therefore, an informed and involved public is essential in setting the priorities in the TIP.

As a part of the process of developing the TIP, INCOG will prepare a detailed list of objectives and procedures to obtain public involvement as it relates to the Transportation Improvement Program. This detailed list will be based upon the following general guidelines:

1. **Specific Outreach** – INCOG will notify in writing individuals, organizations and associations, partner agencies, and local governments at the initiation of the TIP development. This notification will include a description and timeline of the development process, a general outline of the programs and types of projects affected, and detail the opportunities for input and review.
2. **Media Relations Activities** – Press releases, media advisories, and legal notices will be sent to the local media at the initiation, draft, and final approval stages of the TIP development. Articles will be written for inclusion in various organization publications.
3. **Public Meetings** – A total of at least two public meetings each of the TAC and TPC will be held to allow opportunities for public comment prior to the TIP advancing to the next stage of development.
4. **TIP Online** – The draft TIP and final TIP will be posted on the INCOG website with an e-mail link allowing for comments or questions to be submitted. Once the TIP is adopted, a current copy will be maintained on the website reflecting the most recent amendments and progress and/or delay in implementing the TIP.

As a part of these general guidelines, there will be a 21-day comment period before the TIP will be formally adopted and a 14-day comment period before the Board of Directors endorses amendments. Also, public notices will be published in local newspapers and sent to all interested parties. All TAC, TPC, and Board of Directors meetings are open to the public and held at handicapped accessible locations.

The Transportation Improvement Program Plan of Action

The TIP serves as a short-range implementation program, identifying surface transportation projects to be initiated during the three-year period. Additionally, the TIP is used as a program management tool to gauge progress toward implementing transportation plans for the region. Specifically, improvements contained within the TIP must be consistent with the *2025 Mobility Plan* and the Tulsa Metropolitan Area Major Street and Highway Plan, and should reflect progress toward implementation of the plans in light of the overall transportation goals of the metropolitan area. The projects in the TIP, which have a combination of federal, state, and local

funding sources, cover a wide range of transportation modes, including streets and highways, public transportation, bicycle and pedestrian facilities, and airport improvements.

Generally, the planned improvements include new construction; expansion of existing services and facilities; operation, maintenance and reconstruction of existing facilities; efficiency improvements to increase the effectiveness of existing transportation investments; and projects specifically identified for their ability to maintain the Tulsa area's "clean air" status. The availability of good surface transportation facilities and services has always been one of the major factors affecting air quality, commercial activity, and residential development in a changing metropolitan environment. In fact, the transportation system plays a central role in the lives of the residents of the region as we go about our daily business and activities. If the metropolitan area is to enjoy an enhanced quality of life and maintain a competitive position both regionally and nationally, a transportation improvement program is necessary to assure that the transportation system makes a positive contribution.

The Transportation Planning Division will be seeking comments from the public throughout the TIP development process. At key milestones in the process INCOG will provide specific opportunities directly to the public for review and comment on the projects in the TIP. We will be posting all information on our website as well so visit our web page (www.incog.org/Transportation/Transportation.htm), for regular updates on the TIP development and opportunities for input.

For questions regarding the TIP you may contact the Transportation Planning Division via email at incog@incog.org, by fax 583-1024, phone 584-7526, or mail to 201 W. 5th Street, Suite 600, Tulsa, OK 74103

Month by Month Plan of Action

- ***November***
 - o Send out a letter to the PIP database informing of the upcoming TIP schedule
 - o Send out notice in local area newspapers of the upcoming TIP schedule
 - o Post the notice in libraries of the TIP schedule
 - o Send out a second notice to those whom had requested notice of each step in the TIP process – letter sent regarding December 6, 2001 meeting date of the TPC - review of locally selected Surface Transportation Program projects submitted projects
 - o TIP process and submitted project list posted on INCOG web site
 - o Article on TIP process published in the *Insight* November/December issue
- ***January***
 - o Reminder of key dates in the TIP process published in the *Insight* January/February issue
 - o Publish Preliminary TIP list on INCOG web page
- ***March***
 - o Transportation Advisory Committee regularly scheduled meeting to review the preliminary TIP list of projects
 - o Transportation Policy Committee regularly scheduled meeting to review the preliminary TIP list of projects

- o Send out a press release to local area newspapers regarding the preliminary TIP project list for review and comment
- **April**
 - o Send out a notice to the PIP database informing of the TIP now available for review and comment– list available for review on website or in our offices
 - o Send out notices to local area newspapers regarding Final TIP listing of projects
 - o Post notices in the libraries regarding the Final TIP list of projects

Appendix B – Project Selection Process

Surface Transportation Program (STP) Project Prioritization and Selection Process for the Tulsa Urbanized Area

Transportation Policy Committee December 3, 2009

INCOG, as the Metropolitan Planning Organization (MPO) for the Tulsa metropolitan area, is required to establish a selection process for the distribution of STP funds. Priority funding will be given to projects that meet federal regulations (Attachment B), and help advance the Tulsa Region's Long Range Transportation Plan (LRTP) in the following areas:

Arterial Intersections – Safety and capacity improvements to existing intersections. Sample projects include, but are not limited to:

- Railroad crossing improvements
- Signal prioritization, automation, preemption, and/or synchronization
- Intersection lighting, markings, and/or signage
- Pedestrian safety measures

System Preservation – Maintenance or preservation projects for existing transportation infrastructure. Sample projects include, but are not limited to:

- Pavement resurfacing, replacement, reconstruction and/or rehabilitation
- Pavement management system
- Bridge restoration and/or operational improvements

System Management and Integration – Technology systems for the management of, and communication between transportation-related systems. Sample projects include, but are not limited to:

- Highway courtesy patrols
- Congestion/Incident Management Systems
- Advanced Traveler Information Systems (ATIS)
- Intermodal transportation facilities and systems (including CVISN)
- Traffic management center capital and O&M costs
- Data storage and transmission

• Intelligent Transportation System (ITS) roadside hardware

Alternative Transportation – Projects that promote alternatives to Single Occupant Vehicle (SOV) usage. Sample projects include, but are not limited to:

- Transit capital, research, safety improvements, and/or management systems costs
- Carpool/vanpool projects
- Sidewalk modifications and/or walkway projects
- Bicycle transportation projects
- Multimodal connections (park & ride lots)

Capacity Expansion -- Construction projects that add capacity to an existing street or interstate, or construction of new facilities. Sample projects include, but are not limited to:

- Adding lanes to existing streets or highways
- New Interchanges
- New Roads
- Bridge Replacement
- Bridge Widening and/or Lane Additions

****NOTE:** Funds may also be used for wetlands and natural habitat mitigation efforts, and environmental restoration and pollution abatement projects.

With the input of local officials through the Technical Advisory Committee (TAC), Transportation Policy Committee (TPC), and INCOG Board of Directors, proposed projects will be evaluated for eligibility and priority based on a 100-point grading system. Selected projects will be included in the Transportation Improvement Program (TIP) for the Tulsa Transportation Management Area (TMA).

Eligible Transportation Improvements

In order for a project to be eligible for Tulsa Urbanized Area STP funds, it must meet the following criteria:

- 1) The proposed project must represent at least one of the following:
 - A) An implementation of actions from the Destination 2030 LRTP, <http://www.incog.org/Transportation/destination2030/final.htm>
 - B) A transportation system management (including congestion management) project, <http://www.incog.org/transportation/congestionandtraffic/2009CMPdraft.pdf>
 - C) Transportation control measures from the Air Quality State Implementation Plan,
 - D) A safety or transportation enhancement project, or
 - E) System preservation of a transportation facility (i.e., reconstruction, rehabilitation, resurfacing, restoration and operational improvements).
- 2) Projects must be located within the Tulsa Transportation Management Area (TMA) (Attachment C). http://www.incog.org/Transportation/maps/tma2006_general_map.pdf
- 3) Funds must be used for roads classified as Urban Collectors and Arterials or Rural Collectors (Major) and Arterials under the Federal Highway Administration Functional Classification System. (Bridges are exempt from this rule). <http://www.incog.org/Transportation/documents/FedClassMaps.htm>
- 4) The local project sponsor must be a local unit of government or instrumentality thereof (such as the Metropolitan Tulsa Transit Authority or INCOG), within the Tulsa Urbanized Area (Creek County, Osage County, Rogers County, Tulsa County, Wagoner County, City of Bixby, City of Broken Arrow, City of Catoosa, City of Coweta, City of Jenks, City of Sand Springs, City of Sapulpa, or City of Tulsa) or within the Tulsa Transportation Management Area (City of Claremore, City of Collinsville, City of Glenpool, City of Owasso, or the Town of Skiatook.)
- 5) The local project sponsor must provide to INCOG an STP Project Resolution (Attachment A), adopted by the governing body at a public meeting, which describes the project, including the type of improvement, project location, total project cost, and source(s) of matching funds. The sample resolution may be modified to reflect specific agreements between the project sponsor and ODOT or to meet local city charter requirements.
- 6) The local project sponsor must provide to INCOG a preliminary cost estimate adjusted for inflation using a rate of 4% per year over four years, and with a contingency of approximately 15%,(+ or – 5%). Cost estimates for construction projects must be submitted by a registered professional engineer, architect, or landscape architect as appropriate, licensed in the State of Oklahoma.

Funding Ratios

The United States Department of Transportation (USDOT) will divide Surface Transportation Program funds each year among the states based on their respective amounts of highway mileage, vehicles miles traveled, and fuel tax contributions. The Oklahoma Department of Transportation (ODOT) uses 37.75% of allocated funds for various projects throughout the state, with the remaining 62.25% being divided between the Oklahoma City and Tulsa Transportation Management Areas. INCOG's share is on average an estimated \$1.1 million per year. Based on the priorities established, projects representing the expected resources may be programmed in the TIP to be funded with Urbanized Area STP funds.

In order to accelerate completion of the expressway system and/or initiate rail-transit system planning within the Tulsa metropolitan area, up to 15 percent of the Urbanized Area STP funds may be set aside for corridor analysis, functional planning/engineering and environmental studies; up to 50 percent for right-of-way acquisition and utility relocation; and up to 65 percent for construction related to completion/upgrading of the Expressway System (i.e., Gilcrease Expressway/Parkway and Osage/L.L. Tisdale Expressway). Furthermore, Urbanized Area STP funds may be committed to pay bonds and associated financing for projects completing the Expressway System.

If capital projects are submitted that are non-roadway and specifically intended to improve mobility and accessibility for the elderly, low-income households, and persons with disabilities, then up to 5% of the annual apportionment may be set aside provided the projects meet the eligibility requirements and conform to the goals and actions of the Coordinated Human Services – Public Transit Plan.

The balance of the Urbanized Area STP funds will be made available for construction/implementation of transportation projects, utilizing a process to prioritize and select projects to be awarded funding. For those projects selected for funding, all expenses associated with the development of engineering plans, right-of-way acquisition and utility relocation will generally be the responsibility of the local sponsor initiating such projects, per ODOT policy. Local sponsors will also be responsible for providing required matching funds.

Urbanized Area STP projects will be funded at a ratio of 80 percent federal funds and 20 percent local funds for eligible project costs. Certain safety projects may be funded at 100 percent of the cost by federal funds upon approval by ODOT. Such safety projects are described in Title 23, U.S.C., Section 120(c), and include traffic control signalization, pavement marking, commuter carpooling and vanpooling, or installation of traffic signs, traffic lights, guardrails, impact attenuators, concrete barrier end treatments, breakaway utility poles, or priority control systems for emergency vehicles at signalized intersections.

All state and federal requirements in conjunction with the use of federal funds (i.e., uniform relocation, Davis-Bacon, NEPA, etc.) must also be met. In general, it is expected that no single project or entity will be allocated more than 65% of the total STP Urbanized Area funds available per year. And furthermore, no other single project or entity will be allocated more than 50% of the remaining balance of STP Urbanized Area funds available per year. Final project scheduling by fiscal year for selected projects will be based on project phasing, project size and anticipated resources available.

Instructions for Project Submittals

Any entity wishing to sponsor functional planning/engineering, Major Investment Studies, and environmental studies, right-of-way acquisition, and utility relocation related to completion/upgrading of the Expressway System must submit a request to INCOG. Each request will be evaluated on a case-by-case basis to determine if funds will be set aside for this purpose.

A project sponsor wishing to submit a project for implementation using Tulsa Urbanized Area STP funds must complete a *Transportation Project Rating Form* (Attachment D) for each proposed project. The *Transportation Project Rating Form* will be used to establish project eligibility and to score transportation projects proposed for funding. The prioritization resulting from the form's scoring system will allow fair competition and selection based on a project's individual characteristics, status, and local commitment relative to other proposed projects.

Specifically, proposed projects will be evaluated on the following characteristics:

H. Travel Time Improvements	Maximum 16 points
I. Safety Improvements	Maximum 20 points
J. System Maintenance and Management	Maximum 16 points
K. Project Preparation	Maximum 16 points
L. Livability	Maximum 10 points
M. Freight Movement and Intermodal Linkages	Maximum 12 points
N. Special Benefits	Maximum 10 points
Total	100 points

The prioritization scoring will serve as the initial screening used to select projects for funding with Urbanized Area STP funds. Certain types of projects that cannot be evaluated through the project rating process due to their characteristics (e.g., planning and engineering studies, carpool programs, wetlands mitigation, research programs, etc.) may be submitted for consideration. These "exception" projects along with the initial prioritized list will be presented to the TAC, TPC, and the INCOG Board of Directors, which together will establish the final priorities.

Completion of the preliminary activities (functional planning/engineering, and environmental studies) will make the projects better able to compete for construction funds available through other programs for projects statewide. Affected/interested entities will select a lead agency that will act as project sponsors and will be responsible for coordinating the provision of local matching funds. Funding for right-of-way acquisition and utility relocation will only be considered upon state and federal approval of required functional planning/engineering and environmental studies.

INCOG, as the MPO, will notify ODOT of the programming of projects and will provide to ODOT copies of the project sponsors' STP Project Resolution and preliminary cost estimate. The project sponsor must file with ODOT evidence that the local matching share for the proposed project is in hand and immediately available to the project, and three copies of documentation as to the provision of engineering services to the project sponsor for preparation of plans, as applicable, for construction projects. The project sponsor must also execute a project agreement with ODOT within 180 days of project approval by the Board of Directors. INCOG reserves the right to reprogram funds for projects whose sponsors fail to execute agreements within that period.

Project funding will be obligated (approved by ODOT and FHWA) in consultation with INCOG on a "first ready, first funded" basis, regardless of project sponsor. Projects that fail to be ready to be obligated by the Federal Fiscal Year in which they were selected for funding will be jointly assessed by the project sponsor, INCOG, ODOT and USDOT, to determine if the project should be terminated and the funds reprogrammed. Reprogrammed funds will be made immediately available for projects that are ready to proceed. Project selection by the MPO will be considered to occur when the project is included on the TIP approved by the Transportation Policy Committee and endorsed by the INCOG Board of Directors. Upon receipt of MPO concurrence, ODOT will place the project on a scheduled letting list, and request the local funding share from the project sponsor. The matching funds must be received by ODOT before the project can be advertised for bids. Prior to bid opening, ODOT will request Federal authorization of the project.

Project Monitoring

It is the responsibility of ODOT to keep INCOG informed of the status of all Urbanized Area STP projects within the Tulsa area, and to report project cost adjustments so that cost estimates can be replaced with actual construction costs when the projects are let for bid and completed. ODOT shall provide to INCOG verification of the final project cost upon its completion. ODOT shall also provide to INCOG a quarterly status report summarizing the Tulsa Urbanized Area STP program, including the status of all selected projects and the amount of unobligated funding available for programming additional projects.

INCOG will routinely prepare a summary of all Tulsa Urbanized Area STP projects, including location, cost, and status, which have been obligated since the inception of the program.

FFY 2011 Program

Tulsa	Gilcrease West Expressway Edison St. to Tisdale Parkway	Engineering, design, right-of-way, utility relocation, and construction of 2-lane parkway with shoulders and ultimate 4-lane access controlled expressway.	\$6,000,000	\$1,500,000
Sand Springs	SH-97(Wilson Ave.) from W. 2nd St. to Morrow Rd.	Conceptual plans, right-of-way, and phase 1 utility relocation for ultimate widening to 6-lanes including 5 intersections, signalization, and sidewalks.	\$1,600,000	\$400,000
Jenks	Main St. from Elm St. to Koa St.	Right-of-way and construction to widen to 4 to 5-lanes with sidewalks, drainage, and signage.	\$1,833,500	\$435,500
Jenks	Main St. from US-75 to Houston St.	Right-of-way and construction to widen to 4-lanes with sidewalks, drainage, and signage.	\$1,906,000	\$450,000
Jenks	Elwood Ave. and 111th St. Intersection	Engineering, design, and right-of-way for construction of intersection to 4 to 5-lane roadway with turn lanes, bridge replacements, sidewalks, drainage improvements and signage.	\$512,000	\$128,000

FFY 2012 Program

Tulsa	Gilcrease West Expressway	Engineering design, right-of-way acquisition, utility relocation, and construction from Edison Street to LL Tisdale Parkway	\$6,000,000	\$1,500,000
MTTA	Shelters and Sidewalks	Shelter and sidewalk improvements at various locations	\$30,000	\$10,000
MTTA	Vehicle Acquisition	Capital cost to acquire up to 25 public transit vehicles	\$577,323	\$144,331
Jenks	Elwood Ave/111th St. Intersection	Widening intersection to 4-5 lanes, with turn lanes, signalization, and other improvements	\$1,728,600	\$402,000
Rogers County	161st East Avenue/Pine Street Intersection	Construct roadway with shoulders and signalization of intersection	\$720,000	\$180,000

Jenks	Main Street	Right-of-way acquisition and widening of Main Street to 4-5 lanes from Koa St. to Elwood Ave.	\$1,712,600	\$404,000
Broken Arrow	23rd (193rd) Street	Widening 23rd to 3 lanes from Kenosha (71st) to Houston (81st) and replacement of the bridge over SH-51	\$1,377,931	\$344,483

FFY 2013 Program

Tulsa	Gilcrease West Expressway	Engineering design, right-of-way acquisition, utility relocation, and construction from Edison Street to LL Tisdale Parkway	\$6,000,000	\$1,500,000
Sapulpa	Main Street Signal Improvements and Coordination	Implementation of coordinated signal system at five intersections, including various signal upgrades, signal installation at Bryan Street and replacement of signal at Main and Taft.	\$530,000	\$50,000
Jenks	Main & Koa St. Signalization	Engineering, design, and construction of signals including video detection and controls.	\$238,600	\$4,000
Broken Arrow	23rd Street from Kenosha to Houston	Widening of 23rd Street (193rd E. Ave) to 5-lanes and replacement of bridge to 4-lanes over SH-51.	\$2,499,982	\$624,996
Catoosa	161st East Avenue I-44 to Pine	Reconstruction to 4-lanes, curb and gutter, storm sewer, intersection improvement at Pine including dedicated left turn lanes, concrete pavement and large turning radii.	\$1,731,382	\$998,689

Appendix C – TIP Development Process

PROCEDURES FOR DEVELOPING THE OKLAHOMA METROPOLITAN PLANNING ORGANIZATIONS (MPO) TRANSPORTATION IMPROVEMENT PROGRAM (TIP) and THE OKLAHOMA STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM (STIP)

Title 23 USC 135(g)(1) requires each State to develop a statewide transportation improvement program for all areas of the State to cover a period of 4 years and be updated every 4 years or more frequently if the Governor elects to update more frequently. In addition, Title 23 USC 135(j)(1) requires Metropolitan Planning Organizations (MPO) designated for each metropolitan area to develop a TIP in the area for which the MPO is designated, in cooperation with the State and affected public transportation operators. In accordance with these requirements, the Oklahoma Department of Transportation (ODOT) in cooperation with the Association of Central Oklahoma Governments (ACOG), the Indian Nations Council of Governments (INCOG), the Lawton Metropolitan Planning Organization (LMPO), the Bi-State Metropolitan Planning Organization (BSMPO), Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA), have developed the following procedures and deadlines for coordinating and approving the Transportation Improvement Programs (TIP).

TIP DEVELOPMENT PROCEDURES AND DEADLINES

PROCEDURE	DEADLINE
The MPOs will begin the annual preparation of a 4 year TIP. All projects within the boundaries of a metropolitan study area requiring Federal participation, excluding projects undertaken on the National Highway System and pursuant to the Bridge and Interstate Maintenance programs, will be selected by the MPOs designated for such area in consultation with the State and in conformance with the approved Long Range Transportation Plan for such area. Projects undertaken on the National Highway System or pursuant to the Bridge and Interstate Maintenance program will be selected by the State in cooperation with the MPOs. In areas of the state not covered by an MPO, all projects in the STIP will be selected by the State in cooperation with the affected local officials	October
ODOT will request the FHWA to provide a list of Indian Reservation Roads (IRR) to be included in the TIPS	October
ODOT will provide the TMAs (ACOG, INCOG) with a written estimate of anticipated apportionments and obligation authority to be used for preparing their TIPS	November

FTA through ODOT Transit Division will provide a list of all Transit Programs and Funds to be included in each fiscal year of the TIPs.	January
ODOT will provide the MPOs a list of all Federal Funded Forest Highway, Public Transit, Public Lands, Railroad, County Roads, City Streets, City Bridges, Highway, Enhancement projects and FTA Section 5303 funds available to be included in the TIPs for ACOG, INCOG and LMPO	January
Each MPO will provide ODOT a copy of its preliminary TIP for review and comment concurrent with its release for public review and comment, in accordance with Title 23 USC 134(j)(1)(B). A minimum of twenty-one days from the date of first publication will be provided for public review and comment.	April
ODOT will provide written responses to the MPOs indicating if any specific problem(s) exist and the action necessary to correct the Preliminary TIPs.	April
A copy of the Final TIPs will be provided to ODOT for review and approval.	May
ODOT will provide the MPOs written notification approving the Final TIPs.	June
Final MPO TIPs will be amended to the current STIP without modification.	September

STIP DEVELOPMENT PROCEDURES

PROCEDURE	DEADLINE
The State shall develop a new 4 year Statewide Transportation Improvement Program every 3 years. Development of the STIP shall be directly related to the currently approved 8 Year Construction Work Plan. Thereafter, the STIP will be revised as necessary through a series of amendments, administrative modifications and the annual inclusion of the MPO TIPs without modification.	
Development of the STIP will begin with a request to the FHWA for the current Indian Reservation Roads (IRR) TIP.	January
FTA through ODOT Transit Division will provide a list of all Transit Programs and Funds to be included in each fiscal year of the STIP.	January-February
The Preliminary STIP will be distributed to Federal, State and Local Government agencies, Indian Tribal Governments, the MPOs, public transportation operators and the public for review and comments for a minimum period of twenty-one days.	July-August
All substantive written comments received on the Preliminary STIP will be addressed and included in the Final STIP for presentation to the Oklahoma Transportation Commission for approval. The Final STIP, including the MPO TIPs, will then be forwarded to FHWA and FTA for formal approval prior to implementation.	September
If the Transportation Commission approves a County Road, County Bridge, City Street, City Bridge or other local government entity sponsored project, the sponsoring local government entity will be responsible for advertising the project as an addition to the STIP. The public notice will allow a minimum of 14 days from the first date of publication for public review and comment.	
The FHWA Oklahoma Division will take formal action on all proposed highway amendments to the STIP. Similarly the FTA Region VI will take formal action on all proposed transit amendments to the STIP. This formal action will be provided in a form letter with signature and date block. ODOT will prepare said standard form letter for requesting approval of highway amendments to the STIP. When ODOT submits a request for approval of a proposed highway project amendment via email, it will also transmit the same request on the standard form letter to the FHWA. The email request will be sent directly to the FHWA Oklahoma Division general email (www.hdaok@fhwa.dot.gov), with copies to the Planning and Technical Services team leader and the Division Planner. FHWA will review the request and if there are no issues of concern, send a response via email as soon as possible. Transit amendments will be forwarded by FHWA to FTA for review and approval. Subsequently, the FHWA will sign the standard form letter and transmit back to ODOT within 3 working days of receipt of the email	

STIP AND TIP AMENDMENT PROCEDURES

Projects in any of the first four years of the STIP and TIP may be advanced in place of another project in the first four years of the STIP and TIP subject to the project selection requirements of 23 CFR 450.220 and 450.330. In addition, the STIP and TIP may be revised at any time under procedures agreed to by the State, MPO(s), and public transportation operator(s) consistent with the STIP and TIP development procedures established by 23 CFR 450.216, 450.324. Changes that affect fiscal constraint must take place by amending of the STIP.

(1)	When the MPO approves an amendment to the TIP, a copy of the amendment will be forwarded to ODOT for approval, as the Governor's Designee, and subsequently added to the STIP. ODOT will forward notification of the amendment to FHWA and FTA for review and comment. The MPO will be responsible for advertising the amendment and providing an opportunity for public review and comment in accordance with Title 23 USC 134(j)(1)(B). The public notice must allow a minimum 14 days from first date of publication for public review and comment. MPO will provide ODOT with the publication date, any written substantive comments and appropriate responses.
(2)	In case of conflicts with MPO amendment request, ODOT will provide a written response within 15 calendar days of receipt of request, indicating the problem and the action necessary to correct the problem. Once the conflict has been resolved, ODOT will provide the MPO written approval of the amendment and amend the STIP.
	If ODOT approves an amendment to the STIP within the ACOG, INCOG or LMPO metropolitan study area, ODOT will forward notification of the amendment to FHWA and FTA for formal action. ODOT will then make a written request to the MPO to amend the TIP. ODOT will provide the MPO any written substantive comments and appropriate responses.
	In case of conflict with ODOT amendment request, the MPO will provide a written response within 15 calendar days of receipt of request, indicating the problem and the action necessary to correct the problem. Once the conflict has been resolved, the MPO will amend their TIP and provide ODOT with written approval of the amendment.
(3)	When the Oklahoma Transportation Commission approves a federally funded project on the State Highway System and adds it to a currently approved STIP, ODOT will forward notification of amendment to FHWA and FTA for formal action. ODOT is responsible for advertising the project for public review in accordance with Title 23 USC 135(g)(3).

DEFINITIONS

UPDATE – An update is defined as making current a long-range statewide transportation plan, metropolitan transportation plan, TIP or STIP through a comprehensive review. States and MPOs may choose to “update” their transportation plans and programs well in advance of the prescribed update cycles.

AMENDMENTS – Major revisions which require public review and comment, demonstration of fiscal constraint (except for long-range statewide transportation plans), and a conformity determination (for metropolitan transportation plans and TIPs in nonattainment and maintenance areas).

ADMINISTRATIVE MODIFICATIONS – Minor revisions not requiring public review and comment, demonstration of fiscal constraint or conformity.

- A)** Examples of administrative modifications include but are not limited to:
1. Revision to a project description without changes to the project scope or conflict with the environmental document;
 2. Changes to the source of funds;
 3. Changes to project lead agency;
 4. Splits or combines of individually listed projects; as long as cost, schedule and scope remain unchanged or conforms to Section B below.
 5. Adding or deleting projects from grouped project (Line Item) listings as long as the funding amounts stay within the guidelines in number two above;
- B)** ODOT will notify FHWA when funding amount listed for project phases exceeds 20 percent of initial project cost AND is greater than \$2 million and the reason for the cost escalation. FHWA will review and determine if an amendment OR administrative modification is necessary.
- C)** All other revisions/changes not identified as administrative modifications would be classified as amendments to the TIP and STIP, subject to public review and comment, demonstration of fiscal constraint and conformity determination in nonattainment and/or maintenance areas.

STATEWIDE LINE ITEM – Refers to projects with similar scope not defined by specific location or cost.

APPROVAL OF PROCEDURES FOR THE STIP AND TIP

In order to develop the Transportation Improvement Program for the four Metropolitan Planning Organizations and the Statewide Transportation Improvement Program for the State of Oklahoma, these procedures have been prepared by the Oklahoma Department of Transportation in cooperation with the Association of Central Oklahoma Governments, Indian Nations Council of Governments, Lawton Metropolitan Planning Organization, the Bi-state Metropolitan Planning Organization, Federal Highway Administration and Federal Transit Administration. Each Metropolitan Planning Organization will be responsible for completing their Transportation Improvement Program in accordance with these procedures. The Oklahoma Department of Transportation will then be responsible for developing the Statewide Transportation Improvement Program and coordinating these efforts with the Federal Highway and Federal Transit Administration. Any changes to specific items presented in this procedural guide will require formal approval of the undersigned agencies and MPOs.

We, the undersigned, approve these procedures for developing the STIP and TIP. These revised procedures will become effective 4-22-2010.

DATE SIGNED	AGENCY APPROVAL
<u>4-22-10</u>	 Gary Ridley, Director Oklahoma Department of Transportation
<u>4-6-10</u>	 Gary Coffey, Division Administrator Federal Highway Administration
<u>4-13-10</u>	 for Robert C. Patrick, Regional Administrator Federal Transit Administration
<u>7-22-09</u>	 John G. Johnson, Executive Director Association of Central Oklahoma Governments
<u>7-29-09</u>	 Rulon Brister, Executive Director Indian Nations Council of Governments
<u>8-13-09</u>	 Pat Henry, Chairman Lawton Metropolitan Planning Organization
<u>7-15-09</u>	 Ken O'Donnell, Director Bi-State Metropolitan Planning Organization

Glossary of Terms and Acronyms

ADA	American with Disabilities Act
BHfY	Federal Bridge Rehabilitation on collector street or greater
BHIY	Federal Bridge Rehabilitation on Interstate
BRfY	Federal Bridge Replacement on collector street or greater
BRO-C	Bridge Replacement on County Roads
CMA	Congestion Mitigation and Air Quality
DPI	Federal-Aid Demonstration Project
EH	Transportation Enhancement
FFY	Federal Fiscal Year
FHW/A	Federal Highway Administration
FTA	Federal Transit Administration
IMY	Interstate Maintenance

Introduction

The Safe, Accountable, Flexible, Efficient Transportation Equity Act – A Legacy for Users (SAFETEA-LU) was enacted in August 2005 and builds upon the previous transportation acts. The Act specifies the transportation system, on which certain funds can be spent, expands the activities that the funds are eligible for and promotes the role of the Metropolitan Planning Organization (MPO) in the planning and programming of projects. SAFETEA-LU requires each designated MPO to develop a Transportation Improvement Program (TIP), and the State to develop a Statewide Transportation Improvement Program (STIP) as a condition to securing federal funds for the transportation projects.

The TIP is a cooperatively developed four-year program outlining transit, highway, and traffic safety improvements within the LMATS area. Capital projects funded by the Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) are required to be listed in the TIP. There are five specific requirements the TIP must meet before these agencies approve the funding.

- The LMPO's TIP is a four-year program that plans for the development of roads, highways, transit, pedestrian, and bicycle projects for the urbanized area. The TIP will have a priority list of projects and strategies for four years and descriptions (type of work, termini, and length, etc.) of each project in the TIP.
- The TIP must contain a financial plan showing funding sources for the projects contained in the TIP.
- Projects included in the program must be consistent with the LRTP. The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) require that federally funded transportation projects in an urbanized area be included in a TIP, which the MPO has to approve.
- There must be reasonable opportunity for public comment prior to the approval of this TIP; and
- The TIP must cover the entire LMATS area, including tribal land, if applicable.

One of the key requirements of SAFETEA-LU is that the TIP be a financially constrained document with the amounts of funds being programmed equal to the total funds available. This is included to ensure that the transportation projects committed for funding in the various years of the TIP have funds available to allow them to start construction. In addition, the TIP places emphasis on the need for the various local and state entities to work together to ensure that a particular project has all the necessary preliminary work completed by the program year.

The TIP provides the opportunity to select projects to carry out the transportation planning goals expressed in the adopted Long Range Transportation Plan (LRTP). The LRTP details a list of all the projects proposed for completion in the LMATS area by 2030. In cooperation and coordination with the Oklahoma Department of Transportation (ODOT) and the Lawton Area Transit System (LATS) the Lawton Metropolitan Planning Organization (LMPO) biennially updates the TIP. Development of the TIP requires that the LMPO rank the projects identified in the TIP.

The LMPO and Transportation Policy Committee must approve all transportation projects, programs, and operations receiving funds in the LMATS area. The exceptions are federal airport funds for the Lawton-Fort Sill Regional Airport, which are not subject to the LMPO's TIP process, but are listed in the TIP for information and coordination purposes.

New Projects

The LMPO does not receive a dedicated revenue source for transportation projects. New roadway projects are added to the TIP when ODOT notifies the LMPO that federal funds are committed. New transit projects for the public transit system are added at the time of grant submission. Applications for FTA Section 5310 funding must be received by the LMPO no later than the 2nd Friday in December to be included in the annual update of the TIP.

Metropolitan Planning Organization

A Metropolitan Planning Organization (MPO) is a transportation policy-making organization made up of representatives from local government and transportation authorities. The Federal Surface Transportation Assistance Act of 1973 required the formation of a MPO for an urbanized area with a population greater than 50,000. MPO's were created to ensure that the existing and future expenditures for transportation projects and programs are based on a comprehensive, cooperative, and continuing (3-C) planning process. Federal funding for transportation projects and programs are channeled through this planning process.

The Governor designated the City Planning Commission (CPC) in 2003 as the Lawton Metropolitan Planning Organization (LMPO). The LMPO membership represents the eight wards within the City. The City of Lawton's Planning Division administers and carries out the planning and program management functions.

There are five core functions of the MPO:

- Establish and manage a fair and impartial setting for effective decision-making in the metropolitan area.
- Evaluate transportation alternatives, scaled to the size and complexity of the area, to the nature of its transportation issues, and to the realistically available options.
- Develop and update a long-range transportation plan (LRTP) for the metropolitan transportation study area covering a planning horizon of at least twenty years that fosters mobility and access for people and goods, efficient system performance and preservation, and quality of life.
- Develop a program based on the LRTP designed to serve the area's goals, using spending, regulating, operating, management, and financial tools.
- Involve the public and all the significantly affected subgroup in the four essential functions listed above.

MPOs have the responsibility for preparing and approving the area TIP. Included in the TIP are specific elements which the federal requirements under SAFETEA-LU.

Definition of Study Area

The LMATS area is in southwestern Oklahoma within Comanche County. Most of the land area in the LMATS is under the jurisdiction of the City of Lawton. See Map 1. Biennially, the LMPO in coordination with the ODOT, Lawton Area Transit System and other interested parties prepare the TIP. ODOT provides the list of highway projects and statewide projects to be included in the TIP, while the Lawton Area Transit System General Manager and the City Transit Trust provide a listing of transit projects. When the draft TIP is completed, it is sent to ODOT for review and comment. The final draft is distributed to various agencies thirty days prior to the LMPO public hearing. The document is also available for review on the LMPO's

website – www.lawtonmpo.org. In addition, a newspaper notice is placed in The Lawton Constitution fifteen days prior to the LMPO public hearing.

Transportation Planning Process

A major responsibility of the LMPO is the development of a Long Range Transportation Plan for the LMATS area. This plan deals with highway networks, transit service, airports, and pedestrian and bicycling demands. These plans are based on projected population increases and employment trends. They are designed to satisfy the needs of citizens of the LMATS area. Two main products are developed through the planning process. The first is a Transportation Plan and the second is the TIP. Both the LRTP and the TIP must be approved by the LMPO and the Transportation Policy Committee. The LRTP is updated at least every five years, while the TIP is updated biennially.

The LMPO assists the local governments and transit agency providers of the region in implementing projects of the TIP by programming federal funding for the projects. The ODOT administers Surface Transportation Program (STP) funds for the LMATS area. STP funds may be used for transportation facility improvements ranging from rehabilitation of existing facilities to new construction. The Transit Trust administers Federal Transit Administration (FTA) funds for the LMATS area.

Transportation Equity

Transportation equity includes environmental justice and Title VI requirements. Environmental justice assures that services and benefits allow for meaningful participation and are fairly distributed to avoid discrimination. Title VI of the Civil Rights Act of 1964 prohibits discrimination in any program receiving federal assistance. It also provides for active and meaningful involvement of the public in the development of transportation plans and programs.

Long Range Transportation Plan Compliance

During FY 2009-2010, progress was made toward implementing the LRTP, through the following projects:

- Final design complete - NW 38th Street between Gore Boulevard and Cache Road,
- Improvements to the US 62 and Fort Sill Boulevard interchange,
- Improvements to the US 62 and Sheridan Road interchange,
- Reconstruction of NW 67th Street between Cache Road and Rogers Lane, 5-lane facility, and
- Completion of Bike Route Analysis
- .Two projects, Whittier Elementary School and Howell Elementary School, received funding through Safe Routes to School funding
- Rehabilitation and maintenance of I-44 beginning at SH 7, north for 2.6 miles
- Transportation Enhancement Projects:
 - o Reconstruction and streetscape improvements on NW 2nd Street between Gore Boulevard and Columbia Avenue
 - o Awarding contract for the Intermodal Transportation Museum

Lawton Area Transit System

Lawton Area Transit System (LATS) is the fixed route transit and complementary paratransit services available to the Lawton-Ft. Sill community. LATS buses provide service to Ft. Sill, including the Post Main Exchange, Commissary, and Reynolds Army Community Hospital. All routes run through the Downtown Transfer Center, located on the north side of the 400 Block of

"B" Avenue (south of City Hall). LATS serves all of the major shopping areas and movie theaters in town. Every Lawton Public School junior high and high school is on a LATS route. LATS operates Monday – Friday, 6 am – 7 pm, and Saturday, 9 am – 9 pm. A network of five fixed routes with 10 buses operating on a pulse/clockwise/counter-clockwise manner serves the community. LATS makes flag stops for passengers standing at any street corner along the Fixed Routes. Bus passes, transfers, or correct fare are collected in the fare box. Reduced fares are available for: Medicare cardholders, disabled, elderly, and students ages 17 and under. On air alert days adult full fares are reduced to \$0.50.

Many of the capital projects are funded with eighty percent FTA Section 5307 and/or 5309 funds and matched with twenty percent City of Lawton funds. Accessible vehicles are funded by FTA at eighty-three percent and the local match is seventeen percent. The Section 5307 urbanized area program funds are apportioned by a statutory formula based on population, and population density. Tables 6 through 8 provide information on the funding by federal fiscal year for the LATS.

FTA Section 5310 Elderly and Persons with Disabilities Program provides capital assistance through ODOT/DHS that serve the specialized transportation needs of the elderly and persons with disabilities. The Aging Services Division of the Department of Human Services (DHS) administers Oklahoma's Section 5310 program. The amount of Section 5310 funding spent within the LMATS area varies each year and is dependent upon the level of requests from local non-profit organizations as well as the total funds available to the state. Entities that provide demand responsive public transportation in the study area are: Great Plains Improvement Foundation, Comanche Tribe, Comanche County Nutrition Project, Goodwill Industries and Greiner School for the Handicapped. In 2002, the Aging Services Division of DHS was notified in writing that applications for Section 5310 funding must be submitted by the first day of February to be included in the local TIP.

The LMPO staff will review the application to ensure the applicant has developed the application in coordination among federally assisted public and private transportation operators within the area. A newspaper notice will be placed in *The Lawton Constitution* fourteen days prior to the LMPO meeting in which the application will be considered. The LMPO will hold a public hearing to consider the application and solicit comments. Approval of the application by the LMPO will be considered a part of this TIP, as required for federal funding eligibility, pursuant to the line item in the tables.

Indian Reservation Road (IRR) Program

The Indian Reservation Roads (IRR) program was established on May 26, 1928 by Public Law 520. The Act authorized appropriations for construction and maintenance of Indian reservation roads not eligible for Federal-aid highway funding. The IRR program is authorized under the Federal Lands Highway Program, 23 USC 204. The purpose of the IRR program is to provide safe and adequate transportation and public road access to and within Indian reservations, Indian lands and communities for Native Americans, visitors, recreational, resource users and others while contributing to economic development, self-determination, and Native American employment.

The tribal governments develop and submit a priority list of projects to the BIA Area Office accompanied by the tribal government's letter of approval (resolution). The BIA Area Office develops the project lists and develops the BIA TIP and submits to FHWA for approval. After FHWA approval, the BIA forwards the approved TIPs to the appropriate agencies. The BIA

Area Office notifies the tribal governments for which projects are programmed. Title 23 United States Code (USC) requires Indian tribal governments, in cooperation with the Bureau of Indian Affairs (BIA) and as may be appropriate with State, local governments or MPOs, to develop a TIP.

The Transportation Technical Committee has been informed that the Comanche Nation is in the preliminary design of a road running parallel and on the east side of I-44 from Lee Boulevard to Gore Boulevard; however, no formal documentation has been submitted.

Funding Sources

The TIP is developed in compliance with joint Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) regulations. Projects that use federal funds that are shown within the TIP follow these regulations:

- Congestion Mitigation Air Quality Funds (CMAQ) - These funds are for projects to educate the community about the harmful health effects of transportation related ozone and for projects that help reduce ozone-contributing elements.
- Bridge Maintenance Program - This program provides funding for small scale bridge improvements such as painting, minor repair, seal coat/waterproofing, etc.
- Enhancement Activity - All projects must be related to the intermodal Transportation System. The required relationship must be one of function, proximity or impact and meet at least one of the enhancement categories.
- Federal Transit Administration Section 5303 - This funding is for MPO to perform transit related planning.
- Federal Transit Administration Section 5307 - This fund can be used for capital funds for eligible preventive maintenance costs. The funding is distributed annually by apportionment based on population, population density and bus revenue miles of service. The City Transit Trust applies directly to FTA for these funds.
- Federal Transit Administration Section 5309 - This program provides discretionary funding for capital improvement projects such as the purchase of buses or the construction of operating and maintenance facilities. The City Transit Trust applies to ODOT to receive these funds.
- Federal Transit Administration Section 5310 -This program provides funding to private nonprofit agencies for capital improvements for the provision of transportation services to elderly and disabled persons.
- Interstate Maintenance Program - These funds can be used only by ODOT for resurfacing, restoration, and rehabilitation of the Interstate Highway System.
- National Highway System (NHS) - This funding category can only be used by ODOT and includes all interstate and other major U.S. routes and state highways. In the LMATS area the roadways that are on the NHS are: US 62 and I-44.
- Railroad Crossings - These funds may be spent on railroad crossings statewide for modernization and safety improvements.
- Recreational Trails - These funds can only be used by ODOT.
- Right-of-Way Clearance - These funds can only be used by ODOT for the demolition, removal and disposal of obstructions on public right-of-way that require removal prior to utility relocation or project startups.
- Safety Projects - This funding category can only be used by ODOT for small scale traffic/safety improvement to include: traffic signals, intersection modification, lighting, interconnecting systems, guardrail, delineation, etc.

- Surface Transportation Program (STP) - STP funds may be spent on roads that are functionally classified as a collector or higher for urban streets and as a major collector or higher for rural areas.
- Job Access and Reverse Commute (JARC) – These funds are for capital planning and operating expenses for projects that transport low income individuals to and from jobs and activities related to employment, and for reverse commute projects.

Local Funded Projects

The residents of the City of Lawton have approved local funding for the following road projects:

1. NW 38th Street (Gore Boulevard – Cache Road). NW 38th Street Corridor between Gore Boulevard and Cache Road is currently a 4-lane undivided asphalt road. Increased traffic and a sight distance problem have necessitated the reconstruction of this corridor to a 5-lane roadway. The proposed project includes construction of approximately one mile of 5-lane roadway including grading, drainage, paving, right-of-way acquisition and utility reconstruction. The local cost of this project will be funded at 100% by the City of Lawton's 2005 CIP.

Estimated Project Cost:	
Construction	\$5,000,000.00
Utility Relocation	\$ 800,000.00
ROW	\$ 600,000.00
Engineering Fee	\$ 0.00
TOTAL:	\$6,400,000.00

2. SE 45th Street (Lee Boulevard – Gore Boulevard) SE 45th Street between Lee Boulevard and Gore Boulevard in east Lawton is currently a narrow 2-lane asphalt pavement section with numerous access roads and driveways leading into the residences. Increased traffic has necessitated its widening to a 5-lane section. The proposed project includes construction of approximately one mile of 5-lane roadway including grading, drainage, paving, right-of-way acquisition and utility relocation. The 2005 CIP will provide 100% funding for utility relocation, right-of-way acquisition and engineering fees and 20% of the estimated funding for construction. The remaining funding for the project is to be programmed later.

Estimated Project Cost:	
Construction	\$5,500,000.00
Utility Relocation	\$1,000,000.00
ROW	\$1,000,000.00
Engineering Fee	\$ 300,000.00
TOTAL:	\$7,800,000.00

- 3 Rogers Lane (I-44 – Flower Mound Road) Rogers Lane between I-44 and Flower Mound Road in East Lawton is currently a narrow 2-lane asphalt pavement section with limited access roads and driveways leading into the residences. Increased traffic has necessitated its widening to a 5-lane section and provides a loop around East Lawton. The proposed project includes construction of approximately two miles of 5-lane roadway including grading, drainage, paving, right-of-way acquisition and utility

relocation. The 2008 CIP will provide 100% funding for engineering fees. The remaining funding for the project is to be programmed later.

Estimated Project Cost:	
Construction	\$12,000,000.00
Utility Relocation	\$ 1,000,000.00
ROW	\$ 1,600,000.00
Engineering Fee	<u>\$ 800,000.00</u>
TOTAL:	\$15,400,000.00

Air Quality

The Environmental Protection Agency (EPA) has designated Comanche County as an air quality attainment area based on the most current three-years of data (2006-2008). The designation of attainment was achieved through our local efforts to educate the public about air pollution. LMPO staff will continue to develop and implement an air quality public awareness and education campaign. LMPO staff will work closely with the Lawton Metropolitan Area Air Quality Committee (LMAAQC) to develop and implement the public awareness campaign. Funding for the air quality public awareness and education campaign is the Congestion Mitigation and Air Quality (CMAQ) grant and local contribution.

There are three air quality-monitoring stations within the City of Lawton. Installation of the stations was the responsibility of the Oklahoma Department of Environmental Quality (ODEQ). The ozone monitoring station is located south of Lawton along the I-44 corridor on City property near the landfill. The particulate matter station is located at the Comanche County Fairgrounds. The station on the City property continuously samples the air in Lawton for ozone. The station at the Fairgrounds continuously samples the air for Particulate Matter 10. The third monitoring station was placed on property owned by Lawton Public Schools in 2007 and measures Particulate Matter 2.5 and ozone.

Public Participation Process

Changes in federal transportation law require MPOs to expand opportunities for the public to participate in all phases of the transportation planning process. Citizen input is an important step in the development of plans and programs that meet the area's transportation needs while minimizing any negative environmental or social impact.

Consistent with the intent of SAFETEA-LU, it is the policy of the LMPO to support proactive public involvement at all stages of project planning and development. The performance standards are: early and continuous involvement; public availability of technical information; and open public meetings where matters related to Federal-Aid Highway and transit programs are being considered. In order to afford the public an opportunity to review major plans in detail and to solicit public opinion, a newspaper notice is placed in the local newspaper fifteen calendar days prior to a LMPO meeting soliciting comments on the TIP or amendments. The LMPO provides access to all information pertinent to transportation projects and programs. The public may review the documents in the Planning Division, 103 SW 4th Street, from 8:00 a.m. - 12:00 p.m. and 1:00 p.m. - 5:00 p.m., Monday-Friday (except for holidays) and on the LMPO's website at www.lawtonMPO.org.

Amendments

The TIP represents a best estimate of the projects that are planned for advancement during the next four years. However, there must be some flexibility to change the TIP during the two-year

interval between the publications of successive TIPs. Conditions will change, such as changes in priorities and funding availability, which will dictate modifications such as adding a new project, expanding the scope and/or funding level, changing the source of federal funding, or changing the phasing of a project.

A public hearing is required for TIP amendments and will be held in accordance with the LMPO's adopted public participation process. An amendment to the TIP will require action by both the LMPO and TPC.

Grouping of Projects

A summary of expenditures by funding categories can be found in Table 1. Subsequent year programs are listed in Tables 2 through 8. Tables 2 through 5 identify expenditures and projects for surface transportation projects. Tables 6 through 8 identify transit funding categories. Some projects in the program are considered to be inappropriate in scale for individual identification in the TIP. These include signalization, traffic engineering, safety, noise abatement, modernization projects that do not change the use or scale of existing facilities, and certain small-scale highway and transit projects. These types of projects are grouped together under a line item category, with the type of project, funding source, and programming agency.

FY 2010 – 2013 Transportation Improvement Program

BI-STATE MPO BOARD RESOLUTION

ADOPTING THE BI-STATE FY 2010 – 2013 TRANSPORTATION IMPROVEMENT PROGRAM FOR THE BI-STATE METROPOLITAN PLANNING ORGANIZATION

WHEREAS, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) requires transportation plans and programs for metropolitan areas be developed through a continuing, cooperative and comprehensive transportation planning process carried out by the metropolitan planning organization in concert with the state and transit operators; and

WHEREAS, The Bi-State MPO is the officially designated metropolitan planning organization (MPO) for the Fort Smith/Van Buren metropolitan area in Arkansas and Oklahoma; and

WHEREAS, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) requires that each MPO in cooperation with the state(s) and transit provider prepare and adopt a Transportation Improvement Program every 4 years that contains: a priority list of projects and strategies for 4 years; a financial plan; and descriptions (type of work, termini, length, etc.) including investments in pedestrian walkways and bicycle transportation facilities; and

WHEREAS, the Bi-State MPO Staff has prepared the FY 2010 – 2013 Transportation Improvement Program in accordance with the requirements of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) and has presented the Plan to the public in accordance with the Bi-State Public Involvement Procedures.

NOW, THEREFORE, BE IT RESOLVED, that the Bi-State Metropolitan Planning Organization Board hereby approves and adopts the Bi-State MPO FY 2010 – 2013 Transportation Improvement Program.

Adopted January 21, 2010

Bi-State Metropolitan Planning Organization

Notice of Nondiscrimination

The Bi-State Metropolitan Planning Organization (MPO) complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, the MPO does not discriminate on the basis of race, sex, color, age, national origin, religion or disability, in the admission, access to and treatment in the MPO's programs and activities, as well as the MPO's hiring and employment practices. Complaints of alleged discrimination and inquiries regarding the MPO's nondiscrimination policies may be directed to Ken O'Donnell, Bi-State MPO Director, P.O. Box 2067 Fort Smith Arkansas 72902, 479-785-2651, or the following e-mail address: kodonnell@wapdd.org.

This notice may also be requested in large print, audiotape, or Braille.

Bi-State Metropolitan Planning Organization
METROPOLITAN TRANSPORTATION PLANNING PROCESS SELF-CERTIFICATION

The Arkansas Highway and Transportation Department, the Oklahoma Department of Transportation, and the Bi-State, the metropolitan planning organization for the Fort Smith-Van Buren metropolitan area, hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

- (1) 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and 23 CFR 450 *et seq*;
- (2) In non-attainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40CFR part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- (4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (5) Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- (6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27, 37, and 38;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

BE IT RESOLVED, that the Bi-State Metropolitan Planning Organization certifies, in consideration of the requirements listed herein and to the degree appropriate for the size of the area and the complexity of its transportation problems that the urban transportation planning process is being carried out in conformance with all the applicable federal requirements.

Section I Introduction

The Bi-State Metropolitan Planning Organization (MPO) is responsible for the coordination of transportation planning activities in the Fort Smith/Van Buren Arkansas-Oklahoma Urbanized Area. This geographic area, known as the Bi-State Area, is illustrated in **Map 1**. The Fort Smith/Van Buren Arkansas-Oklahoma Urbanized Area comprises the urbanized portions of Crawford and Sebastian Counties in Arkansas and LeFlore and Sequoyah Counties in Oklahoma. The Bi-State Area also includes areas within the Counties identified above that are anticipated to become urbanized within the next 25 years.

The **FY 2010 - 2013 Bi-State Transportation Improvement Program (TIP)** has been developed as a part of the continuing, cooperative, and comprehensive planning program as established under planning regulations of the US Department of Transportation. The **FY 2010 - 2013 Bi-State TIP** includes all transportation improvements planned or programmed within the Bi-State Urbanized Area that will utilize federal funding for all or part of their implementation costs. Its' purpose is to assist in coordinating the use of these funds for area-wide transportation improvements and to ensure that the projects that are the recipients of these federal funds are in conformance with the **Bi-State Year 2030 Long Range Transportation Plan** adopted in August 2006 and scheduled to be updated in 2011.

The projects that are contained in the **FY 2010 - 2013 Bi-State TIP** have been selected by and coordinated with local units of governments within the Bi-State Area and the AHTD and ODOT. They have been reviewed for consistency with the Bi-State's Long Range Plan, responsiveness to local and regional needs, and for the availability of federal funds and non-federal matching funds. This last review element, the availability of federal funds and non-federal matching funds, is a core component of the TIP. The landmark federal legislative initiative, the *Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA)*, its re-authorization legislation, the *Transportation Equity Act for the 21st Century (TEA-21)* and the *Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU)*. *SAFETEA-LU* explicitly set the threshold for the inclusion of federally aided transportation improvement projects in TIPs and Long Range Transportation Plans. This threshold embodies the concept of fiscal constraint which simply means that there is a reasonable expectation of federal funding for the individual projects contained in either of the two documents. With respect to the TIP, reasonable expectation is defined as the guarantee or probability of federal funding within the four (4) year time frame of the TIP. Reasonable expectation differs with respect to the Long Range Transportation Plan in that this Plan is a twenty-five (25) year plan aggregated into five (5) incremental improvement stages. Each of these stages has a corresponding improvement program from which subsequent TIPs will be developed.

The projects contained in the Illustrative Element of this document are not time sensitive as are the projects identified in the Incremental Schedules of projects that are addressed in the preceding paragraph. Rather, the Illustrative projects are subject to the availability of the necessary funding or a reasonable expectation of funds to implement the projects. It is anticipated that as funds are made available or new funding categories are developed the projects that form the illustrative listing will be elevated to the appropriate Long Range Plan time Increment based on the type of project and the estimated timeframe for implementation. The Illustrative projects are found in Section V of this document.

Section II. Availability of TIP Projects and Data on the Bi-State Web-site

Upon approval and adoption of the Bi-State 2010 – 2013 Transportation Improvement Program, the various improvement projects with associated project information will be placed on the Bi-State web based GIS platform. The projects will be identified on an interactive map with the associated information presented in drop down attributes boxes linked to the point data on the map.

Section III FY 2010 - 2013 Bi-State Transportation Improvement Program

FY 2010 - 2013 Bi-State Transportation Improvement Program

*When 'STATEWIDE' is shown in the "COUNTY" column in the following tables, it means that the project funds identified for projects are programmed for those within the entire state of Arkansas/Oklahoma and not only for projects within the Bi-State MPO area.

*Arkansas receives an annual apportionment for the Sections 5310, 5311, 5316 and 5317 programs (listed as statewide projects in the TIP). The Arkansas State Highway and Transportation Department (AHTD) solicits a statewide annual application process from transit providers. Applications are received from urbanized and rural areas. Based on submitted applications, applicants' eligibility, project's eligibility, rating system and available funds, the AHTD approves projects for funding. Approved projects are submitted to the Federal Transit Administration (FTA) for their approval. Once approved by the FTA, agencies throughout the state are informed of grant awards and contracts executed.

BI-STATE FY 2010 – 2013 Funding Summary (Constrained)

BI-STATE FY 2010 – 2013 Funding Summary, Arkansas and Oklahoma These funding Totals Include Arkansas Highway and Transit Funds And Oklahoma Highway Funds All funds X 1,000			
Fiscal Year 2010			
Federal	=		\$284,291
State	=		\$22,132
Local	=		\$16,020
Total	=		\$322,443
Fiscal Year 2011			
Federal	=		\$285,524
State	=		\$21,728
Local	=		\$9,961.25
Total	=		\$317,213.25
Fiscal Year 2012			
Federal	=		\$273,065
State	=		\$6,039
Local	=		\$10,175.25
Total	=		\$289,279.25
Fiscal Year 2013			
Federal	=		\$156,819
State	=		\$24,109
Local	=		\$10,405.25
Total	=		\$191,333.25
Grand Total by Source Fiscal Years 2010 - 2013			
Federal	=		\$999,699
State	=		\$74,008
Local	=		\$46,561.75
Total	=		\$1,120,269

- The totals shown in this table include total project costs for projects that have been identified as statewide in the county columns within this document in Section III. Therefore, the total costs for projects that are identified in the above table include total costs for some projects that are programmed within the entire state of Arkansas and many in Oklahoma and not only within the Bi-State MPO planning area.

SECTION V

Nothing will ever be attempted if all possible objections must first be overcome". - Samuel Johnson

SECTION 5:

INDIAN RESERVATION ROADS PROGRAM

SECTION 5:

INDIAN RESERVATION ROADS PROGRAM

Special emphasis has been placed on the development of transportation planning procedures consistent with the metropolitan and statewide planning process for roads funded under the Federal Lands Highway Program (FLHP). The Indian Reservation Roads (IRR) Program is one of the transportation activities which is funded by the FLHP. The IRR Program funds are allocated to the Bureau of Indian Affairs (BIA) for the construction and improvement of roads, bridges and transit facilities leading to, and within, Indian reservations or other Indian lands. The funds are distributed based on relative need following the approval of the IRR TIP.

The IRR TIP is a prioritized list (by year) of projects selected by Indian Tribal Governments from tribal TIPs. The BIA receives a tribal TIP from each Indian Tribal Government and places the IRR projects into the IRR TIP. If an IRR project lies within a metropolitan area, it must be included in the MPO TIP. The BIA submits the IRR TIP to FHWA for inclusion in the STIP without modification.

In Oklahoma, the Indian Tribal Governments, BIA, FHWA, State and MPOs keep an open channel of communication and are partners in the transportation planning and decision-making process.

SECTION 6:

COUNTY IMPROVEMENTS FOR ROADS & BRIDGES (CRIB)

SECTION 6: COUNTY IMPROVEMENTS FOR ROADS AND BRIDGES (CIRB)

House Bill 1176, 2006 legislation, created the County Improvements for Roads and Bridges (CIRB) program which provides a long term state funding increase for the sole purpose of construction or reconstruction of county roads or bridges on the county highway system that are of the highest priority.

The Department and Counties have prepared a Five Year Construction Work Plan comprised of improvements to the county system that advance the safety and mobility benefits realized by the traveling public and commerce. The Work Plan may be accessed at www.okladot.state.ok.us under Transportation Programs.

SECTION 7:

THE PUBLIC INVOLVEMENT PROCESS

SECTION 8:

THE PUBLIC INVOLVEMENT PROCESS

The State of Oklahoma, FHWA, Tribal Governments and MPOs partner in the transportation planning process and are proactive in fostering and assuring a full and open access public involvement process when developing the STIP and TIPs. Timely, accurate and complete information about transportation issues, processes and documents is made available to the public through various methods. The public is provided access by use of the ODOT web site, publishing Notices of Availability and press releases. Citizens are provided the opportunity and are encouraged to review and comment during the initial development phase and on major revisions.

The State also partners with the following organizations in public consultation efforts by the inclusion of informational articles to solicit comments, notices of public meetings and other information as appropriate through their organization's publications.

Oklahoma Municipal League
Association of General Contractors
Association of County Commissioners of Oklahoma
Sub-State Planning Districts

Rural Transit providers and Oklahoma Transit Association
Other organizations as appropriate and available
Oklahoma Department of Commerce

Outside of the metropolitan planning areas, transportation projects are selected by the State in consultation with the affected local officials. A documented public involvement process to ensure consultation with local officials has been developed which is separate and discrete from the transportation policy and project development in metropolitan areas of greater than 50,000 population.

The following section includes any substantive public comments, Certifications, and the adopted STIP and TIP Development/Amendment Process. This process, agreed to by the State, FHWA, FTA and MPOs, is designed to ensure consistency and cooperation in developing Oklahoma's transportation system.

CERTIFICATION
STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM
FFY 2011 -2014

The Oklahoma Department of Transportation hereby certifies that the transportation planning process is being carried out in accordance with all applicable requirements of:

- 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;
- Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- 23 CFR part 230, regarding implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27,37, and 38;
- The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- Section 324 of title 23 U.S.C., regarding the prohibition of discrimination based on gender; and
- Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

In addition, the Oklahoma Department of Transportation ensures:

- Public involvement was provided for in the development of the FFY 2011-2014 STIP as required by 23 CFR part 450;
- The Transportation Improvement Programs for the Metropolitan Planning areas are included without modification and have been approved by the Governor or his designee;
- The STIP only contains projects which are consistent with the Oklahoma Statewide Intermodal Transportation Plan.

Gary M. Ridley
Secretary of Transportation

**PROCEDURES FOR DEVELOPING
THE OKLAHOMA METROPOLITAN PLANNING ORGANIZATIONS (MPO)
TRANSPORTATION IMPROVEMENT PROGRAM (TIP) and
THE OKLAHOMA STATEWIDE TRANSPORTATION IMPROVEMENT
PROGRAM (STIP)**

Title 23 USC 135(g)(1) requires each State to develop a statewide transportation improvement program for all areas of the State to cover a period of 4 years and be updated every 4 years or more frequently if the Governor elects to update more frequently. In addition, Title 23 USC 135(j)(1) requires Metropolitan Planning Organizations (MPO) designated for each metropolitan area to develop a TIP in the area for which the MPO is designated, in cooperation with the State and affected public transportation operators. In accordance with these requirements, the Oklahoma Department of Transportation (ODOT) in cooperation with the Association of Central Oklahoma Governments (ACOG), the Indian Nations Council of Governments (INCOG), the Lawton Metropolitan Planning Organization (LMPO), the Bi-State Metropolitan Planning Organization (BSMPO), Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA), have developed the following procedures and deadlines for coordinating and approving the Transportation Improvement Programs (TIP).

TIP DEVELOPMENT PROCEDURES AND DEADLINES

PROCEDURE	DEADLINE
The MPOs will begin the preparation of a 4 year Transportation Improvement Program biennially or more frequently. All projects within the boundaries of a metropolitan study area requiring Federal participation, excluding projects undertaken on the National Highway System and pursuant to the Bridge and Interstate Maintenance programs, will be selected by the MPOs designated for such area in consultation with the State and in conformance with the approved Long Range Transportation Plan for such area. Projects undertaken on the National Highway System or pursuant to the Bridge and Interstate Maintenance program will be selected by the State in cooperation with the MPOs. In areas of the state not covered by an MPO, all projects in the STIP will be selected by the State in cooperation with the affected local officials	October
ODOT will request the FHWA to provide a list of Indian Reservation Roads (IRR) to be included in the TIPs	October
ODOT will provide the TMAs (ACOG, INCOG) with a written estimate of anticipated apportionments and obligation authority	November

to be used for preparing their TIPs	
FTA through ODOT Transit Division will provide a list of all Transit Programs and Funds to be included in each fiscal year of the TIPs.	January
ODOT will provide the MPOs a list of all Federal Funded Forest Highway, Public Transit, Public Lands, Railroad, County Roads, City Streets, City Bridges, Highway, Enhancement projects and FTA Section 5303 funds available to be included in the TIPs for ACOG, INCOG and LMPO.	January
Each MPO will provide ODOT a copy of its preliminary TIP for review and comment concurrent with its release for public review and comment, in accordance Title 23 USC 134(j)(1)(B). A minimum of twenty-one days from the date of first publication will be provided for public review and comment.	April
ODOT will provide written responses to the MPOs indicating if any specific problem(s) exist and the action necessary to correct the Preliminary TIPs.	April
A copy of the Final TIPs will be provided to ODOT for review and approval.	May
ODOT will provide the MPOs written notification approving the Final TIPs	June
Final MPO TIPs will be amended to the current STIP without modification.	September

STIP DEVELOPMENT PROCEDURES

PROCEDURE	DEADLINE
The State shall develop a 4 year Statewide Transportation Improvement Program biennially. Development of the STIP shall be directly related to the currently approved 8 Year Construction Work Plan. Thereafter, the STIP will be revised as necessary through a series of amendments, administrative modifications and the annual inclusion of the MPO TIPs without modification.	
Development of the STIP will begin with a request to the FHWA for the current Indian Reservation Roads (IRR) TIP.	January
FTA through ODOT Transit Division will provide a list of all Transit Programs and Funds to be included in each fiscal year of the STIP.	January-February
The Preliminary STIP will be distributed to Federal, State and Local Government agencies, Indian Tribal Governments, the MPOs, public transportation operators and the public for review and comments for a minimum period of twenty-one days.	July – August
All substantive written comments received on the Preliminary STIP will be addressed and included in the Final STIP for presentation to the Oklahoma Transportation Commission for approval. The Final STIP, including the MPO TIPs, will then be forwarded to FHWA and FTA for formal approval prior to implementation.	September

STIP AND TIP AMENDMENT PROCEDURES

Projects in any of the first four years of the STIP and TIP may be advanced in place of another project in the first four years of the STIP and TIP subject to the project selection requirements of 23 CFR 450.220 and 450.330. In addition, the STIP and TIP may be revised at any time under procedures agreed to by the State, MPO(s), and public transportation operator(s) consistent with the STIP and TIP development procedures established by 23 CFR 450.216, 450.324. Changes that affect fiscal constraint must take place by amending of the STIP.

(1)	When the MPO approves an amendment to the TIP, a copy of the amendment will be forwarded to ODOT for approval, as the Governor's Designee, and subsequently added to the STIP. ODOT will forward notification of the amendment to FHWA and FTA for review and comment. The MPO will be responsible for advertising the amendment and providing an opportunity for public review and comment in accordance with Title 23 USC 134(j)(1)(B). The public notice must allow a minimum 14 days from first date of publication for public review and comment. MPO will provide ODOT with the publication date, any written substantive comments and appropriate responses.
(2)	In case of conflicts with MPO amendment request, ODOT will provide a written response within 15 calendar days of receipt of request, indicating the problem and the action necessary to correct the problem. Once the conflict has been resolved, ODOT will provide the MPO written approval of the amendment and amend the STIP. If ODOT approves an amendment to the STIP within the ACOG, INCOG or LMPO metropolitan study area, ODOT will forward notification of the amendment to FHWA and FTA for formal action. ODOT will then make a written request to the MPO to amend the TIP. ODOT will provide the MPO any written substantive comments and appropriate responses.
(3)	In case of conflict with ODOT amendment request, the MPO will provide a written response within 15 calendar days of receipt of request, indicating the problem and the action necessary to correct the problem. Once the conflict has been resolved, the MPO will amend their TIP and provide ODOT with written approval of the amendment. When the Oklahoma Transportation Commission approves a Federally funded project on the State Highway System and adds it to a currently approved STIP, ODOT will forward notification of amendment to FHWA and FTA for formal action. ODOT is responsible for advertising the project for public review in accordance with Title 23 USC 135(g)(3).

	If the Transportation Commission approves a County Road County Bridge, City Street, City Bridge or other local government entity sponsored project, the sponsoring local governmental entity will be responsible for advertising the project as an addition to the STIP. The public notice will allow a minimum of 14 days from first date of publication for public review and comment.
NOTE	The FHWA Oklahoma Division will take formal action on all proposed highway amendments to the STIP. Similarly, the FTA Region VI will take formal action on all proposed transit amendments to the STIP. This formal action will be provided in a form letter with signature and date block. ODOT will prepare said standard form letter for requesting approval of highway amendments to the STIP. When ODOT submits a request for approval of a proposed highway project amendment via email, it will also transmit the same request on the standard form letter to the FHWA. The email request will be sent directly to the FHWA Oklahoma Division general email (www.hdaok@fhwa.dot.gov), with copies to the Planning and Technical Services team leader and the Division Planner. FHWA will review the request and if there are no issues of concern, send a response via email as soon as possible. TRANSIT amendments will be forwarded by FHWA to FTA for review and approval. Subsequently, the FHWA will sign the standard form letter and transmit back to ODOT within 3 working days of receipt of the email.

Definitions

UPDATE – An update is defined as making current a long-range statewide transportation plan, metropolitan transportation plan, TIP or STIP through a comprehensive review. States and MPOs may choose to “update” their transportation plans and programs well in advance of the prescribed update cycles.

AMENDMENTS - Major revisions which require public review and comment, demonstration of fiscal constraint (except for long-range statewide transportation plans), and a conformity determination (for metropolitan transportation plans and TIPS in nonattainment and maintenance areas).

ADMINISTRATIVE MODIFICATIONS – Minor revisions not requiring public review and comment, demonstration of fiscal constraint or conformity.

- A)** Examples of administrative modifications include but not limited to:
1. Revision to a project description without changes to the project scope or conflict with the environmental document;
 2. Changes to the source of funds;
 3. Changes to project lead agency;
 4. Splits or combines of individually listed projects; as long as cost, schedule and scope remain unchanged or conforms to Section B below.
 5. Adding or deleting projects from grouped project (Line Item) listings as long as the funding amounts stay within the guidelines of Section B.
- B)** ODOT will notify FHWA when funding amount listed for project phases exceeds 20 percent of initial project cost AND is greater than \$2 million and the reason for the cost escalation. FHWA will review and determine if an amendment OR administrative modification is necessary.
- C)** All other revisions/changes not identified as administrative modifications would be classified as amendments to the TIP and STIP, subject to public review and comment, demonstration of fiscal constraint and conformity determination in nonattainment and/or maintenance areas.

STATEWIDE LINE ITEM – Refers to projects with similar scope not defined by specific location or cost.

APPROVAL OF PROCEDURES FOR THE STIP AND TIP

In order to develop the Transportation Improvement Program for the four Metropolitan Planning Organizations and the Statewide Transportation Improvement Program for the State of Oklahoma, these procedures have been prepared by the Oklahoma Department of Transportation in cooperation with the Association of Central Oklahoma Governments, Indian Nations Council of Governments, Lawton Metropolitan Planning Organization, the Bi-State Metropolitan Planning Organization, Federal Highway Administration and Federal Transit Administration. Each Metropolitan Planning Organization will be responsible for completing their Transportation Improvement Program in accordance with these procedures. The Oklahoma Department of Transportation will then be responsible for developing the Statewide Transportation Improvement Program and coordinating these efforts with the Federal Highway and Federal Transit Administration. Any changes to specific items presented in this procedural guide will require formal approval of the undersigned agencies and MPOs.

We, the undersigned, approve these procedures for developing the STIP and TIP. These revised procedures will become effective 4-22-10, 2009.
